MAY HAVE PAID FIRE FIGHTERS

Rushville Will Likely Do Away With
Volunteer Department if Ordi-
nance Passes.

WILL BE INTRODUCED SOON

Council Seems to Favor Five-Man
Department Because All Volun-
teers Are Not at Every Fire.

First steps towards a paid fire de-
partment were taken last night by
the city council when the city at-
torney was instructed to draw up an
ordinance providing for the dismis-
sal of all volunteer firemen and the
employing of a third man for the
central station.

If the ordinance is passed the fire
department will be composed of five
members, including the chief. The
matter was brought to the attention
of the council by Fire Chief Easley.

The fire chief believed that a more
efficient fire department would result
with the employment of a third man
at the station. All of the volunteers
would be released and with a five-
man department assurance would
be given that all would be at a fire.

With three regular firemen, the
chief, and the engineer for the fire
engine Fire Chief Easley believed
that the city would be better protec-
ted than with a volunteer depart-
ment of nine men. The records of
the department show that about half
of the men attend fires and there was
no satisfaction or working method
in this kind of a system. With fire
men and with the aid of persons,
who would help in case of a fire,
Easley believed greater protection
could be given. In this manner the
company would be composed of a
chief, an engineer, a driver, a nozzle
man and a man for the hydrant. Un-
der the chief's plan the driver would
be a fireman in case he was needed
could turn the team over to some
one while fighting the fire.

Under the plan as discussed last
night the men at the fire station are
kept there on duty practically all
the time and with three men the
firemen could stay in shifts and
thus enjoy a little freedom. Several
of the council favored Easley's plan
and believed that the city would
have to come to a paid department
sooner or later. The ordinance pro-
viding for the change in the depart-
ment will probably be introduced at
the next meeting.

While discussing the fire depart-
ment the council ratified the ap-
pointment of Carl Foust as driver
of the department and instructed
the city clerk to order a fire gong
for the chief.

Superintendent Mahin of the wa-
ter and light plant in a brief state-
ment to the council showed that the
city had saved \$1,262.89 last year
in coal alone at the plant. His an-
nual report is not quite ready for
the council but he gave a few items
to show that there was a saving
there last year. In 1913 he stated
that the plant used 8,416,450 pounds
of coal at a cost of \$9,678.97. In
1914 the plant used a total of
7,650,500 pounds of coal or a sav-
ing of 765,950 pounds at a cost of
\$1,262.89. With this saving the out-
put of the plant was increased
twenty percent.

Four bond ordinances for side-
walk improvements amounting to
\$944.85 were passed under the sus-
pension of the rules. The bond or-
dinances were for the improvement
of the west side of North Oliver
street, from Ninth to Eleventh
street, amounting to \$268.46; for
both sides of Ninth street, from
Perkins to Willow street, amounting
to \$258.59; for the improvement of
the north side of West Eighth street
from Willow street to George,
Continued on Page 2.

STRIKES HEAD ON STOVE

Mrs. D. W. McDaniel Trips While
Ironing and is Hurt.

Tripping over a dress that she
was ironing, Mrs. David W. McDan-
iel fell against the stove at her home
in West Third street this morning,
cutting a deep gash in her head.
Mrs. McDaniel was alone in the
house at the time and almost bled to
death before assistance reached her.
Her head struck a sharp corner of
the stove and while the injury is not
considered serious it was quite pain-
ful. Several stitches were required
to close the wound.

COSTS MORE THAN AMOUNT DEMANDED

Court Fees in Suit of Clell Maple
Against Lafayette Johnson Will
Total About \$50.

FIRST HEARD BY A SQUIRE

An instance where the court costs
will amount to more than the amount
demanded in the suit was seen to-
day in the account suit of Clell
Maple against Lafayette Johnson,
which was tried in the circuit court
before Special Judge A. J. Ross and
a jury. The demand is only \$45 and
the costs will amount to nearly \$50.
The case was originally tried be-
fore Squire Kratzer and taken to the
circuit court by Maple when the
court found for the defendant.

Maple alleges that Johnson owes
him a balance on an account for
service to Dale Axworthy, a horse
that at one time was managed by
Maple. The case was expected to
go to the jury late today. The fol-
lowing is the jury: A. J. Farthing,
Walter C. Reinheimer, Guy Bussell,
E. E. Polk, William Schankle, Ira B.
Hite, Charles Newhouse, David
Compton, John Bussell, Sabert Of-
futt, Charles Sefton and Ellis Cul-
bertson.

FLOOD PREVENTION BILL INTRODUCED

Senator Stephen B. Fleming of Fort
Wayne Proposes Water Control
Districts.

MEMBER OF THE COMMISSION

(By United Press.)
Indianapolis, Jan. 20.—Senator
Stephen B. Fleming of Fort Wayne,
today introduced his flood preven-
tion bill, which represents the ef-
forts of flood prevention commis-
sion. Fleming was a member of the
commission.

The bill proposes to establish wa-
ter control districts, the commis-
sioners of which would have the
widest powers to control drainage
water courses and water supply.
They could also issue bonds and
levy taxes on the benefitted prop-
erty.

The attorney general, the auditor
of state and the president of the
state school of engineering would
compose the state water control, ac-
cording to this bill. The water con-
trol districts the board would estab-
lish would have powers of eminent
domain superior to all other corpo-
rations, public and private. Such
districts could be organized by the
board on petition of 500 free hold-
ers of the district of representatives
of half the value of property.

RUSHVILLE IS NEAR THE TOP

Only Few Cities in Indiana Make
Larger Contribution For Relief
of Belgians.

TO NORTHWESTERN MILLER

Indiana Contributes 4,651 Barrels of
Flour and Ranks Third in List
of State in Union.

Only a few cities in Indiana did
better than Rushville and vicinity
in the Belgian relief movement, ac-
cording to a preliminary report is-
sued by the Northwestern Miller, of
Minneapolis, Minn. The comparisons
apply only to the fund conducted by
the Northwestern Miller because
there were several other Belgian re-
lief movements. The one to which
the people of Rushville and vicinity
gave, however, was one of the larg-
est and most important ones.

The report which has been received
by C. G. Clark & Sons shows that
thirty-eight Indiana cities aided in
the work and that the largest contri-
bution of 1,073 barrels of flour came
from Terre Haute. Lafayette sent
228 barrels and Liberty took third
place sending 225 barrels. Nobles-
ville contributed 210 barrels, which
the local contribution amounted to
185 barrels, augmented by sixty-five
barrels given by the special fund
sent to this state by the Minneapolis
Miller. This made a total of 250
barrels, or a car load, shipped from
Rushville and made by C. G. Clark
& Sons.

A summary of the report shows
that Minnesota, the home state of
the Northwestern Miller, made the
largest contribution of 28,248 bar-
rels of flour. Ohio came next with
4,861 barrels but was not far ahead
of the Hoosier state which had 4,651
barrels to her credit. The entire
contribution to this movement
amounted to 70,780 barrels of flour,
or 283,120 sacks or 14,156,000
pounds.

William G. Edgar, editor, of
the Northwestern Miller, assumed
personal responsibility for the dis-
tribution of the flour in Belgian and
is giving his personal attention to
the work. He is assisted by the
American Ambassador and other
United States officials and agents.

In speaking of the relief move-
ment in which the people of this city
have an important part, Mr. Edgar in
his first report says:

"The Northwestern Miller itself is
but the agency through which this
good deed is being accomplished; it
only reflects the generosity of those
whom it represents. It takes no
credit to itself; the full amount
thereof belongs to those who in re-
sponse to its appeal worked with so
much enthusiasm and devotion for
the cause presented to them.

"It is impossible for the North-
western Miller to find words strong
enough to show its profound and
heartfelt gratitude to those who
have answered its call with such
spontaneous and prompt generosity,
who have done all and more than it
asked, and who, had time and cir-
cumstances permitted, would have
given much more than even the
great amount now subscribed.

"To those who have contributed to
this fund, to every miller who first
gave himself and then invited others
to join him, to every newspaper that
helped the millers in their work, to
every subscriber who gave money to
be converted into flour, to every ag-
ent and agency that joined in mak-
ing this movement a success, the
Northwestern Miller desires to ex-
press its sincerest thanks. May the
good God prosper all of them and
may this bread cast upon the waters
return to those who gave at a most
bounteous and lasting blessing."

RUSHVILLE MAN ONE OF OFFICERS

Frank Priest Will be Master of Arms
at Annual District Meeting of
Knights of Pythias

TO BE AT RICHMOND FRIDAY

Corps of Officers from Lodges of
District Will Conduct Work.
Program is Announced

Frank Priest of Ivy Lodge No. 27
will act as Master of Arms at the
eleventh district meeting of the
Knights of Pythias to be held in
Richmond Friday. A corps of offi-
cers from the lodges of the district
will conduct the work at the district
meeting and Mr. Priest was selected
from the local lodge for this chair.

The complete program for the
meeting has been announced by Roy
Fry, deputy grand chancellor. Sev-
eral hundred delegates and members
from over the district are expected
to attend. The usual plan of the
district meetings will be changed
this year and the public meeting will
be held at night instead of in the
afternoon. Coeur De Lion Lodge,
No. 8 will act as host to the mem-
bers of the district.

At two-thirty o'clock a delegates
meeting will be opened in regular
lodge form. Roll call, appointment
of committees and other routine of
annual meetings will follow. At this
session all the business of the dis-
trict will be taken up. Besides Mr.
Priest other members of the local
lodge who have signified their inten-
tions of attending are Charles Os-
man, Floyd Hogsett and Samuel L.
Trabue.

The public meeting will open at
seven-thirty o'clock in the K. of P.
temple by a number by the Weisbrod
Saxophone orchestra. The program
follows:

Vocal solo—Mrs. Charles Ingelman.
Address of welcome—C. H. Hoel-
scher.

Response—Harry Wade, Grand
Keeper of Records and Seal.
Address—Robert A. Brown, Grand
Chancellor of the Pythian Indi-
ana Domain.

French Horn solo—Phillip Gates.
Short address by visiting officers.

The list of officers who will con-
duct the meeting is as follows:

Roy C. Fry, Coeur De Lion lodge
No. 8, Richmond, D. S. C.; 9rle M.
Brown, Winchester lodge No. 91,
Winchester lodge, P.; Frank Priest,
Ivy lodge No. 27, Rushville, M. of
A.; Lewis Harrell, Liberty lodge No.
114, Liberty, I. G.; Harry Wade,
Curzan lodge No. 111, LaFayette, K.
R. and S.

IS MARRIED FOURTH TIME

Edward Fisher Takes Wife Married
Twice Previously.

(By United Press.)

Edward Fisher, the Milroy notary
and attorney, and Mrs. Jeffie B. Led-
man were married late yesterday af-
ternoon by the Rev. C. M. Yocum at
the Main Street Christian church
parsonage. It was Fisher's fourth
marriage and her third venture.
Fisher is seventy-one years old and
his bride is fifty years old. Mr.
Fisher obtained a divorce from his
third wife in 1913. Mr. Fisher be-
came "famous" in Milroy by adver-
tising that he could "write on a
typewriter and talk at the same
time."

Jacob Clifton has filed a petition
against the estate of Samuel F.
Clifton, deceased, to sell real es-
tate.

NO PRIMARY LEGISLATION

Senator VanNuys Democratic Lead-
er, Expresses That Belief Today

(By United Press.)

Indianapolis, Ind., Jan. 20.—Sen-
ator VanNuys, Democratic floor
leader, said today that the Demo-
crats of the senate would caucus
Thursday or Friday on the the 22
Stotenberg amendments proposed
for the state constitution. The
primary bill would not be consid-
ered at that time, he said.

"In fact," he said, "I do not ex-
pect any primary legislation to be
passed this session."

MORMONISM CRITIC WILL SPEAK HERE

Former Senator Frank J. Cannon of
Utah Will Deliver Two Address-
es Here Sunday, March 7.

IS INVITED BY MINISTERS

The Rushville Ministerial associa-
tion has accepted the offer of the Na-
tional Reform association of Phil-
adelphia to send Frank J. Cannon,
former United States senator from
Utah and bitter enemy of Mormon-
ism, to this city for two addresses
the first Sunday in March, which
falls on the seventh day of the
month. Former Senator Cannon is
one of the best known authorities in
the United States on Mormonism,
having been a Mormon himself once
upon a time. He will speak at a
Men's Big Meeting in the afternoon
and at a union meeting of the
churches at night. The places for
the meetings will be announced lat-
ter.

It is said that Former Senator
Cannon, who was a Mormon at the
time, worked more than any other
man in Utah to gain the admission
of the territory as a state, under the
condition, it has been reported, that
the Mormons should abolish po-
ligamy. When Utah became a state
the church did not live up to its
promise, according to the story, and
Mr. Cannon renounced it. He has
contributed many magazine articles
and is leading authority on this
topic.

ALL FIVE PLEAD GUILTY

Tramps Charged With St. Paul Rob-
bery Sent to Prison.

Shelbyville, Ind., Jan. 20.—The
five tramps charged with robbing
the Benning Brothers store at St.
Paul late yesterday afternoon
pleaded guilty before Judge Blair to
charges of petit larceny and all of
them were sentenced to the Indiana
reformatory for not less than one
year nor more than eight. Each was
fined five dollars and disfranchised
for a period of eight years. Before
the plea of guilty was entered to the
petit larceny charge the prosecutor
had withdrawn the charges of burg-
lary that were originally filed
against the men. Sheriff Terry stat-
ed he would likely take the men to
the reformatory today.

AEROPLANES ARE TOWN WRECKERS

Growing Conviction That Zeppelins
Did Not Make Daring Night
Attack Calms Londoners

DOUBT EXPRESSED TODAY

Yarmouth Certain Invaders Piloted
Aeroplanes Which Dropped
Bombs on English Coast

(By United Press.)

London, Jan. 20.—Growing con-
viction that aeroplanes, not Zepp-
elins, made the daring night attack
on the east coast last night, did
much today to calm the minds of
Londoners.

Despite the definite statements of
several persons that they saw Zepp-
elins, officials of the city visited by
the raiders frankly expressed their
doubts. The police at Yarmouth de-
clared today the outlines of the in-
vaders were plainly visible in the
early evening. They are positive
the raiders piloted aeroplanes.

The raid of the German aircraft
has long threatened and has kept
London in a state of turmoil. The
aeroplanes attempted to blow up
with bombs the King's royal resi-
dence in Sandringham, County Nor-
folk. King George and Queen Mary
who had been staying at Sandring-
ham with their family, only yester-
day returned to London to resume
their residence in Buckingham
Palace. It is reported that bombs
landed in the King's estate. Six
towns were shelled by the raiders.

It is not definitely known whether
the raiders were Zeppelins or aero-
planes, but Zeppelins were reported
yesterday afternoon as passing over
the North Sea in a westerly direc-
tion, and there is an inclination to
believe these were the raiders.

A Zeppelin is reported to have
been brought down by the fire of a
warship at Hantanton, a few miles
north of Sandringham, but this has
not been confirmed and is doubtful.

Reports reaching London are to
the effect that a squadron of six
air craft crossed over the North
Sea and on reaching the coast line
separated, some of them taking a
southerly direction and others an
opposite course. These reports,
however, have not been confirmed.

The night was quite calm, but
very dark and cloudy, which made it
impossible for the people in the
towns over which the aircraft passed
to distinguish even the outlines of
the raiders, though the whirr of
their propellers and the droning of
their motor could be heard distinct-
ly.

Bombs were dropped in Yarmouth,
Kings Lynn, Sandringham, Cromer,
Sherringham and Beeston and ev-
erywhere, except at Beeston, casu-
alties and damage to property re-
sulted.

The first place visited was the

worth while.

CHILD'S CONDITION
WORRIED PARENTS

Little Daughter Very Delicate
—Had No Strength—Made
One of Healthiest Children
in Town by Vinol.

Crestline, Ohio.—“I contracted a hard, chronic cough, and was in a weak, nervous, run-down condition for years. I was losing weight all the time and had no ambition. I have a small family of three, and it was hard for me to keep around and do my work. I took different medicines, but they did not relieve me to any extent. Finally I heard about Vinol and tried it, and I am happy to say that it has restored me to health and strength, and my cough is all gone and I feel fine now.”—Mrs. H. H. CARLISLE, Crestline, Ohio.

It is the healing and strengthening properties of the extract of cod's liver and tonic iron combined in Vinol, which built up Mrs. Carlisle's health, and her cough disappeared as a natural result.

If Vinol fails to help all those who buy it for chronic coughs, colds, or weak, nervous, run-down conditions, we agree to return their money.

People everywhere are praising Vinol because they have found it just what they needed to drive away lingering coughs and to build up their health and strength.

F. B. Johnson & Co., Druggists, Rushville, Ind., and at leading drug stores everywhere.

AUCTION.

I will sell the following goods at public auction, next Saturday, January 16th, at 10 o'clock at No. 1023 North Arthur street, Rushville, Indiana, six dining chairs, dining table, dresser, chiffonier, Vernice Martin bed, 10-6x12 rug, pair lace curtains, 2 rockers, library table, mattress, set of bed springs and other household articles. These goods are practically new having been used a short time. Terms of sale cash in hand. 262t3. J. C. FOSTER.

SHOWS REALITY
BUSINESS LIGHT

Real Estate Transfers Reveal That
Only \$32,890 Change Hands in
First Half of Month.

FEW PRICES NOT MENTIONED

Largest Single Deal of Period Calls
For an Exchange of Only
\$8,800 For Richland Land.

That the reality business in Rush county was dull the first half of January is revealed by the real estate transfers for that period. Where considerations are mentioned—and there were very few transactions where the price paid was not given—the total sum changing hands amounts to only \$32,890. The largest sale of the first sixteen days of the month was \$8,800 paid for an undivided interest in a farm of 160 acres in Richland township. The transfers follow:

Franklin J. Stamm and wife, et al. to Angeline Stamm, lots 5 and 12 in the original plat of Vienna (now Glenwood) \$1.00

Nancy E. Dora to Florence W. Perkins, lot 11 and a part of lot 9 in Samuel S. Durbin's addition to Vienna (now Glenwood) \$400.

Board of Trustees of Indiana Soldiers' & Sailors' Orphans' Home to the State of Indiana, for the use of the said Board of Trustees—quit claim to 242 acres in Center and Ripley townships. For a valuable consideration, to comply with a state law.

Adda E. Hudelson to Frank M. Hudelson, 45 acres in Center township, \$7,000.

James M. Gwinn and wife to Ben L. McFarlan, part of lot 107 in the original plat of Rushville, \$1500.

Ben L. McFarlan to Rebecca

Gwinn, part of lot 107 in the original plat of Rushville \$1500.

John Conroy and wife to Charles W. Wagoner, lot 56 in Berkley Park addition to Rushville, \$195.

Stephen B. Adams, to Oscar E. Hayes, undivided one-fourth of 3 parcels of real estate in Rushville, South Main street, \$1, etc.

Warren W. Robbins and wife to Walter O. Bragg, lot 66 in H. G. Sexton heirs addition to Rushville, \$1 and exchange of property.

John W. Logan and wife et al to Nettie Willis, south one-half of lots 15 and 16 in James W. Trees' first addition to Manilla, \$1400.

William Demoss and wife to Jas. and Carrie Demoss, lots 23, 22, 24 and 25 in the original plat of Henderson, \$450.

Nathan Arbuckle, et al to The Homer Canning Co., parcel of land in Homer, \$25.

The Homer Canning Co. to Dessie Hilligoss Lower, lot 100 feet by 146 feet in Homer, \$500.

John R. Bennett and wife to Orbie Short, quit claim to a lot adjacent to I. P. Root's second addition to Milroy, \$1800.

David F. Hite and wife to Jacob W. Hite undivided interest in 160 acres in Richland township, \$2200.

George W. Hite and wife, et al., to Jacob W. Hite, undivided interest in 160 acres in Richland township, \$8,800.

Lewis E. Harecourt and wife to James H. Martin, lot 13 in the new addition to the Milroy cemetery, \$20.

Chase G. Cross and wife to John F. Cross, undivided two-thirds interest in 80 acres in Jackson township, \$6,000.

Eliza Brison and husband to Thomas K. Mull, lot 4 in Trees and Spencer's addition to Manilla and part of lot 3 in the original plat of Manilla, \$250.

Sarah E. Piper, et al., to Merle G. Piper, 39 14/100 acres in Orange township, for mutual partition.

William M. Blackledge, to Henry Miller, 5 acres in Union township, \$1200.

Oma E. Thrall and husband to Richard Whiting, lot 53 in Frank McCorkle's addition to Milroy, \$100.

WAR NEWS FEATURE

BY P. M. SARLE.
(U. P. Staff Correspondent.)

London, Dec. 28: (By mail to New York)—Hustling methods were expected from the members of the Canadian contingent now completing their training on Salisbury Plain, but even his comrades admit that Private Victor Albert Baker was “going some” in providing himself with a wife in six weeks. The more so that the bride is a Belgian refugee, whose very slight knowledge of English was acquired in that period, while Baker still has no French.

Baker, who is 23 years of age, was an engineer on the Canadian Pacific railway, and threw up his job to join the Canadian army at the outbreak of the war. His father is also a member of the contingent. Six weeks ago another Canadian soldier introduced young Baker to his cousin, a Belgian girl of twenty, who has been compelled to flee from Antwerp, when the city was besieged by the Germans.

Bertha Vendon Bosch had been a clerk in one of the big hotels, and when she came to England she was practically penniless. That didn't worry Baker who prides himself on being able to pick out a sound reliable article on sign. Nor did the language question worry him, though that was a serious difficulty for he knew no French and Bertha's English was of the most primitive kind.

At their second meeting after the introduction Baker proposed marriage, and the Belgian girl, who had already begun to entertain kindly feelings for the handsome young soldier, though surprised by his impetuous avowal, consented to accept the engagement ring with which he had already provided himself. Baker had his military duties to perform so they saw each other only twice after that.

Then, the other day, he got thirty-six hours leave from camp, and armed with a marriage license, he and Bertha proceeded to Linden-grove church, in the south London district of Camberwell, where the latter changed her name to Baker. The honeymoon was limited to one day, which was spent in the neighboring district of Beckham, most of it at movie-palaces.

The unconventional wedding was attended by Baker's father, in khaki like the bridegroom, and the bride's uncle and aunt, both of whom are Belgian refugees. Bertha's father and mother are stranded somewhere on the continent so know nothing of their daughters romance.

The mayoress of Camberwell attended the wedding breakfast, at which one of the guests offered the bride and bridegroom some amusing advice: “If you don't learn each other's language, you will be the happiest man and wife in the world.” Mrs. Baker is to go to the home of her parent's in Canada, to await his return from the war.

“A” Division, Metropolitan Police, which formerly had the exclusive privilege of guarding the royal palaces—Buckingham Palace in particular—has lost its monopoly, for, somewhat to the disgust of “Bobby” the “regulars have been reinforced by a strong detachment of special constables.” These “specials” are no ordinary volunteer police for they include peers of realm, members of the House of Commons, and over 200 barristers, doctors, actors, stockbrokers, etc.

Lord Claude Hamilton, M. P. is in command, and the “Headquarters Detachment of the Metropolitan Special Constabulary,” muster 600 strong. The members perform police duties voluntarily, and give a certain number of hours each week. They wear ordinary civilian clothes, with an armband, and carry a truncheon and whistle. No revolvers are allowed.

When the “special police” were first enrolled a “Headquarters” detachment was formed and the men proved themselves so useful that the majority were taken over by the Admiralty, to work the searchlights and anti-airship guns which were mounted, in various parts of London while others were attached to the detective force. For the new body just formed for palace guard and other important work of a highly confidential nature, only 600 were needed, but there were over 1,000 volunteers. 230 of the disappointed ones were given commissions in the army and the navy.

WHEAT GETS BACK

WOMAN WOULD
NOT GIVE UP

Though Sick and Suffering; At
Last Found Help in Lydia
E. Pinkham's Vegeta-
ble Compound.

Richmond, Pa. — “When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

“After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound.” — Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women

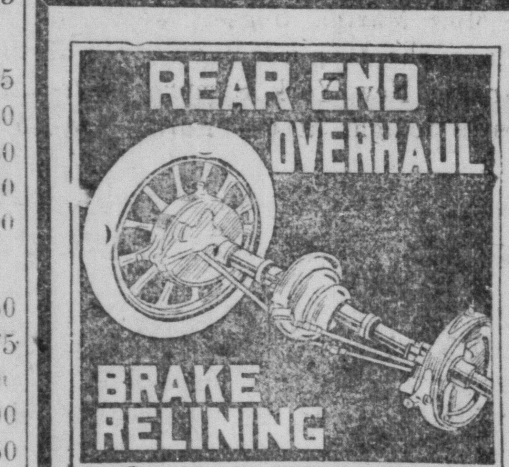

for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

How's This?

We offer One Hundred Dollars
Reward for any case of Catarrh
that cannot be cured by Hall's
Catarrh Cure.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.
Take Hall's Family Pills for constipation

HOW DOES THE REAR AXLE
OF YOUR CAR “SOUND”
AND ACT?

Is it noisy, loose and does it seem to “gather together” before the car moves, instead of acting noiselessly and as a single unit?

Every car's “rear end” should be overhauled once a year and the brakes should be relined—if you want to enjoy safe, “worry free” motoring and have brakes that HOLD.

Now is the time to have US do the work—here in a first class shop where ALL the work is done by skilled mechanics.

Our Charges are Moderate.

road, amounting to \$171.44, and for the north side of East Ninth street, from Willow street to George, amounting to \$246.36.

Another one of those old claims, which was passed along to this council by the Black administration came up last night. Ed Beer had a claim for work on installing a water meter and after putting up his deposit decided to put the meter in the basement of his home. According to the claim he never received his money. The claim was never allowed by the old council and was one of those pushed off on this council by the famous “riders” put through on the last day of the Black administration. No action was taken on the Beer claim last night.

M. J. Ogden submitted a claim for forty-five cents, alleging that the city beat him out of this much time in installing the water meter. The city charges forty-five cents an hour and Ogden claimed that his wife sat time on the men and that they worked only one hour. The men turned in for two hours and they were upheld by the council for the claim was turned down.

The city is making preparation to get the ordinance record in shape and the city attorney will draft a new parade and show ordinance. The city remembers the trouble last summer when a band from a stock company was playing outside the city was compelled to pay a license to play on the streets of the city and rather than go through a similar experience the coming summer, will have the law in shape and waiting for the show.

The Ladies of the M. E. church will present the play, “How the Story Grew,” in the auditorium of the high school building at Orange, Friday night, January 19. Music by Wagoner's Orchestra. Admission 10 and 20 cents. 268t8

The funeral services of Mrs. Laura Sherwood will be conducted Thursday morning at ten-thirty o'clock at the late residence in Brookside by the Rev. A. D. Batchelor and burial, will take place in East Hill cemetery.

Harry Dawson, of Connersville, who underwent an operation at the Sexton sanatorium last week, is improving nicely and his recovery is now expected. Mr. Dawson is the agent there for the Indianapolis and Cincinnati Traction company.

A large crowd attended the joint-institute of the farmers of Noble township, Rush county and Orange township, Fayette county today in Orange. The institute was held in the assembly hall at the school building.

Society News

Miss Frances Noble, daughter of Alvin Noble, and Ora McMichael were married Tuesday afternoon by the Rev. C. M. Yocum at the Main Street Christian church parsonage.

Mrs. Nina Abels and Dr. J. G. Lewis were quietly married this afternoon at four o'clock at the Main Street Christian church, by Rev. C. M. Yocum. The ceremony was witnessed by only a few friends. They left immediately for Cincinnati, and after the wedding trip of a few days, will be at their newly furnished home, 511 North Jackson street.

Amusements

The Princess will show the nineteenth episode of "The Million Dollar Mystery" for the first picture tonight. The title of this one is "The Underground River" and it is said to be full of thrills and as exciting as all of the series. The other picture is a Biograph drama entitled "A Better Understanding." Irene Hawley is featured in this one. Tomorrow night the two reel feature "The Senator's Brother" will be shown and on Friday, matinee and night the big feature "A Florida Enchantment" will be shown. This one is in five acts and is a real feature.

The Gem offers a two part Eclair drama "The Dupe" for the first picture tonight. It is a story of the sale of fake mining stock and is a thrilling drama telling an interesting story. The other is a Victor drama entitled "Out of the Valley." J. Warren Kerrigan is featured and plays the part of the supposed outlaw. As an extra attraction tonight Floyd Williams and Laurence Mitchell, rag time piano players will appear.

ARGUMENTS IN BALL SUIT STARTS TODAY

Federal League Attorney Declares Draft Rule Strikes at Heart of American Institutions.

SUIT UNDER ANTI-TRUST LAW

(By United Press.)

Chicago, Jan. 20.—The draft rule was termed "gambling, speculating and a pernicious practice striking at the very heart of our American institutions" by Keene Addison, attorney for the Federal League, in his argument before the federal court when the suit to dissolve the American and National Leagues began here today. The suit is brought under the anti-trust law.

"By means of it," he declared,

"the major leagues send one player to the minors to be farmed out and then by August 15 either get a better player for him or take the same man back."

He declared the powers of the national commission were absolute and wielded without mercy until the players fraternity worked reforms. He pointed out that, in 1913, 61 appeals were denied out of a total of 76 made by players.

THE GEM

SOME ORIGINAL RAGTIME BY TWO RAGGEDY RAGS

As an extra attraction tonight, we will have Profs. Floyd Williams and Laurence Mitchell, crack ragtime piano players, who are demonstrating an up-to-date line of popular music from the Ass't. Music Publishing Co., Cincinnati, Ohio.

"THE DUPE"

A two part Eclair special. A strong, well developed story of how two crooked business men make a dupe of a young fellow who inherits a fortune. Later the fake mining stock develops into the real thing and the hero is richer than ever. ROBERT FRAZER and MILDRED BRIGHT play the leads, while Helen Martain plays the daughter of one of the crooks. This is an unusually strong offering, working up naturally and easily to a fine climax.

J. WARREN KERRIGAN in Victor Drama

"Out of the Valley"

Kerrigan plays the supposed outlaw. He saves the sheriff's life during a realistic attack by Indians on the wagon road. The settings are typical and the story winds up very pleasing.

FRIDAY

The Daily Republican
The "Old Reliable" Republican News-
paper of Rush County.
Published Daily except Sunday by
THE REPUBLICAN COMPANY.
Office: Northwest Corner of Second and
Perkins Streets.
RUSHVILLE, INDIANA.
Entered at the Rushville, Ind., Post-
office as Second-class Matter.
TELEPHONE NUMBER, 1111.
Wednesday January 20, 1915.

It Will be Principles

More and more it is become ap-
parent that the voters in 1916, when
they go to vote for president, cast
their ballots more for the principals
for which the candidate stands than
they will for the man. It has been
the tendency during the last few
years to forget fundamental policies
of government when they have been
overshadowed by personalities. But
millions of men who two years ago
had steady employment and are now
either out of a job or are working
only part time have learned a lesson
one that they will not forget soon.

A Washington dispatch says that
one of the Progressive members of
congress has been exhibiting a letter
from a Progressive friend out west
who wrote as follows:

"Two years ago I voted for the
greatest man this nation ever pro-
duced. Theodore Roosevelt, but two
years hence, I pledge you my word,
no matter who he is, just so he is
a Republican, he gets my vote.
When Wilson tells us that the Re-
publican party has not had a new
idea for thirty years, he insults the
intelligence of some seven million
voters."

Stolen Goods

Now comes forth the information
that Ralph W. Moss, Indiana con-
gressman, has swiped bodily the tar-
iff commission bill which ex-Con-
gressman Nicholas Longworth of
Ohio introduced in the fifty-first
congress. And President Wilson
came all the way to Indianapolis to
remark that the Republican party
had not had a new idea in thirty
years.

A Washington dispatch says Mr.
Moss made a few changes in the bill
to fit in chronologically with the era
of its recrudescence, but in the main
the bill is almost identically the
same, none of its essential features
being changed in the least.

Thus is seen one of the strange
whirligigs of politics. Moss is a
Democrat—a thoroughly ingrained
Jacksonian tariff-for-revenue Dem-
ocrat. Longworth as everybody
knows, is a Republican of the pro-
tection school. No, there is nothing
in law or ethics to prevent a member
of the congress from swiping some-

**"Vaporize" Croup
or Cold Troubles**

Vapor treatments for cold troubles are
better than internal medicines, as the va-
pors carry the medication direct to the
lungs and air passages without disturbing
the stomach.
When Vick's "Vap-O-Rub" Salve is ap-
plied over the throat and chest, these va-
pors, released by the heat of the body, are
inhaled with each breath. 25c. to \$1.00.
THE GENUINE HAS THIS TRADE MARK.
"VAPORUB"
VICK'S Croup and SALVE
Pneumonia

—Cash First— —Cash Last—
THE MAN WHO PAYS CASH

body else's bill. It is done fre-
quently.
But the worst of the story is yet
to come. Mr. Longworth is a "come-
backer" and on March 4 next he will
become a member of the congress
again. Naturally he will want to
introduce the bill of which he is the
parent and push it through the con-
gress as his cherished off-spring.
Therefore, it is reasonable to sup-
pose he will be deeply chagrined
when he learns that Representative
Moss is kidnapping his child and is
running away with it. Furthermore
many Democratic members of the
house are assisting him in getting
away with the stolen goods.

What a Dollar Will Do

This is the time of year when
many people begin to approximate
their expenditures for the ensuing
twelve months.

What of your expenditures?
Have you considered what a single
dollar will buy and what a feast of
information it will give you?

Let us think a few thoughts.
A dollar will pay for one hundred
and four issues of this paper.
And what will the paper do for
you?

It will be a regular daily visitor
to your home—rain or shine—in
good weather or foul—in prosperity
or adversity.

It will tell you what the town and
county authorities are doing, of the
improvements they are making, of
the manner in which they are ex-
panding the people's funds.

It will tell you of business condi-
tions, of crops, of the state of the
markets, of all that is needed in
the conducting of public and private
affairs.

It will tell you of the births, of
the marriages, of the deaths, and of
the sickness of your relatives and
friends.

It will tell you of the business op-
portunities of the community, of the
public sales, of the transfers of real
estate, and of many other such de-
tails in which you have a personal
interest.

It will report conditions among
the stock, and the chickens, and the
hogs, and of everything that walks
on feet.

It will tell you what your neigh-
bors are doing, what others farther
away are doing, what the community
at large is doing. And it will tell
others what you and your family
are doing.

It will tell you of the activity of
the churches, and of the societies,
and lodges, and of public gatherings
of every nature.

It will tell you of the strangers
within our gates, and of your visits
to other climes.

It will tell you of everything worth
knowing in our entire community,
throughout your circle of acquaint-
ances, and it will tell you all of these
things twenty-six times every month.

Is there any place where you can
spend a dollar to better advantage
than to invest it in a year of this
paper?

* **PRESS COMMENT ON**
* **PRESIDENT'S SPEECH.**

Serves Him Right
(Muncie Press)

In view of the interesting event
which has just occurred at the White
House, it is probable that President
Wilson will never again rebuke the
Republican party for "taking its ad-
vice from men old enough to be
grandfathers."

Will Overlook It
(Richmond Item)

In view of what transpired at the
White House Sunday doubtless Re-
publicans will be more disposed to
overlook the unkind things that
President Wilson had to say about
them in his Indianapolis speech.
Prospective grandpas are liable to
become a trifle enthusiastic, occa-
sionally.

MANURE SPREADER.

If you have any thought of getting
a Spreader this spring, please come

**What the Solons Are Doing;
Legislative Facts---By Expert**

Prepared for the United Press by John A. Lapp,
director of the Bureau of Legislative
Information.

(Mr. Lapp will answer questions relating to
the work of the Legislature, including legisla-
tive organization and methods, pending bills and
enacted laws. Questions on the merits of men
or measures will not be answered. To avoid
delay address all questions direct to the United
Press, 36½ West Washington St., Indianapolis.
Questions may be sent to the Daily Republican
if preferred.)

M. A. writes—"What are the pro-
visions of the direct primary law
now in effect in Indiana?"

Reply—The present direct primary
law applies to the nomination of
county officers in counties which
have a city with a population of
more than thirty-six thousand, and
to the nomination of city officers in
such counties. Other counties and
cities may hold a direct primary at
the wish of the parties.

Emory writes—"Why is it that a
court now has difficulty in closing
a house of ill fame?"

Reply—There is no process by
which a court may close a house
of ill fame except when offenders

from such houses are brought for
trial before the court, when a court
may fine and imprison such offen-
ders. A bill is now pending before
the legislature which declares such
houses to be nuisances and permits
courts to issue injunctions to pre-
vent the continuance of such houses.

Farmer writes—"What are some
of the objections raised to the three-
mile road law?"

Members of the legislature
are saying that the three-mile
gravel road law is costing too much
money, that it does not insure the
building of the roads that are most
needed; and that it is too easy for
a few people to put heavy expense
upon the township by it.

Taxpayer writes—"How are the
county health commissioners now
chosen?"

Reply—The boards of county
commissioners appoint the county
health commissioners.

**Over Two Million Squirrels Have
Been Killed Because of the Plague**

(By United Press.)

Washington, Jan. 20.—The war of
extermination against squirrels be-
ing conducted in California by the
United States Public Health Service
in connection with the precautions
against plague has resulted in the
death of 20,150,000 rodents, accord-
ing to figures just announced.

During the epidemic of plague in
San Francisco in 1907-1909, it was
discovered that the ground squirrel
a rural rodent which abounds on the
Pacific coast, had acquired the in-
fection. Cases of plague in human
beings which had occurred in rural
districts were traced in these ro-
dents. The health service at once
decreed their death.

Since 1908, the chief efforts of the
Public Health Service and the Cali-
fornia state board of health, acting
in co-operation, have been directed
to eradication of plague from among
ground squirrels. The most satis-
factory work, it is stated has been
accomplished since July 1, 1913,
due to the fact that sufficient funds
and adequate legislation were pro-
vided by the state legislature at its
last session.

Ninety percent of the squirrels on
an area of 3,100,000 acres, or about
equal the size of Connecticut, have
been destroyed since July 1, 1913.
The infection has almost disappear-
ed in this area. So effective has
been the work of the hunters that
they have to cover an area of 25
acres to catch one squirrel.

"In view of these facts it is be-
lieved that all discoverable plague
has been eliminated from Califor-
nia," says the Public Health Service.
"and that the danger of its further
spread has been removed. Obser-
vation will be maintained until after
the next breeding season, which be-
gins in April, when—if no further
infection has made its appearance
—the statement can be made with
certainty that no further plague
exists in California. Large
economic benefits have accrued to
farmers as a result of squirrel de-
struction and all are now interested
in finally destroying these animals.

Pig clubs are the latest fad in
Louisiana, says the Department of
Agriculture in a bulletin just issued.
The contest of members of the pig
clubs at the Louisiana State Fair at
Shreveport was highly successful,
the department reports. Although
the fair authorities limited the num-
ber of entries to 150, boys from all
parts of the state shipped 185 pigs.

The southern farmer, by virtue of
his location and climate, is splen-
didly situated for the production of
fowl and eggs, says the Department
of Agriculture in a bulletin just
issued. The mild winters and early
springs make the production of eggs
an easy matter when prices are high.
"On many farms throughout the
country," says the Department, "the
money derived from the sale of
poultry and eggs buys the groceries
and clothing for the entire family.
Every southern farmer can do as
well, and should aim to keep at least
50 hens for laying purposes and

home consumption. Select some of
the American breeds, such as the
Plymouth Rocks, Wyandotes, or the
Rhode Island Reds. The Orping-
tons are also a good general-purpose
species."

While prices are good, the depart-
ment of agriculture advises farm-
ers should get busy and make con-
tracts with city folks to ship eggs
by parcel post throughout the year.
With a parcel post egg market es-
tablished the farmer can depend up-
on a reliable income all the year
around and utilize the mails for
marketing other products if the
eggs experiment proves successful.

Once having secured a parcel post
market for eggs, it will be a very
easy matter to market many other
things by the same method such as
butter, poultry, fresh and cured
meats, sausage, fruits, vegetables,
honey and so on.

ONLY ONE "BEST"

**Rushville People Give Credit Where
Credit is Due.**

People of Rushville who suffer
with weak kidneys and bad backs
want a kidney remedy that can be
depended upon. Doan's Kidney
Pills is a medicine for the kidneys
only, and one that is backed by wil-
ling testimony of Rushville people.
Here's a case.

Mrs. Ella Endicott, 125 South
Harrison street, Rushville, says:
"One of the family suffered from
severe pains through the back and
had trouble in straightening after
stooping. The kidneys were also ir-
regular in action. Finally, Doan's
Kidney Pills were used and they re-
moved the trouble."

Price 50c. at all dealers. Don't
simply ask for a kidney remedy—
get Doan's Kidney Pills—the same
that Mrs. Endicott recommends.

LIGHTWEIGHTS ARE VERY ACTIVE

Ex-Champs and Second Raters Trying to Get in on Easy Money Seemingly Coming Their Way

BAT NELSON WANTS ONE MORE

Talent is Equally Matched and Many Good Fights Have Resulted. More to Come

BY HAL SHERIDAN (Written for United Press.)

New York, Jan. 20.—Everybody in these dollarful days of sport seems to want to be a lightweight. Ex-champs are coming back, ditto ex-second raters, and a whole crop of young blood who scrap around the 133 pound mark are trying to bring their way to fortune via the califlower ear route.

The reason is, naturally, the cash. The public apparently has tired of inferior milling by lumbering "heavies" the middleweights until recently have not excited much interest and the feathers and bantams have been keeping unmercifully quiet.

The lightweights, around such boxing centers as New York, Milwaukee and New Orleans, seem to be getting all the coin. Aside from the fight fans' interest in a lightweight mill because more cleverness is usually shown than in encounters between heavier boxers, it is a fact that the present crowd of lightweight entertainers is about the best in several years.

Perhaps not in many seasons has the fight ring seen equally matched talent as Freddie Welsh, Charley White, and Young Shugrue with Willie Ritchie, Ad Wolgast, Leach Cross and Johnny Dundee hovering around the fringes of the same championship class. Below this crowd is a host of other "lights" capable of giving any crowd its money's worth.

Speaking of lightweights, you can not let Bat Nelson of Hegewisch, Ill. drop completely out of your mind. Bat won't let you. Having tackled a fresh break into vaudeville the ex-king of lightweights offered to lick everything in sight and particularly to trim Ad Wolgast "just for fun." Abe Attell also is in vaudeville. Consequently it is not peculiar that Abe breaks into print. He bites off a section of the battling Dane's weeping challenge and offers to beat him "if he weighs a ton."

Come on Oscar Nelson—come on.

HOUSING LAW IN DANGER

Representative Van Horne Will Push Repeal Measure.

(By United Press.)

Indianapolis, Jan. 20.—Representative Van Horne of Lake county, Republican, today declared he intended to push his repeal to the housing law, which passed the 1913 session. This attempted repeal has been expected but the source was unknown.

"Hammond, Gary and East Chicago have sent representations to the Governor asking that this law not be enforced, for it works an injustice on us," he said. "The sections prohibiting building on 25-foot lots and erecting building flats above store buildings are the most objectionable features to these fast-growing cities," he said.

A marriage license was issued this afternoon to Dr. John G. Lewis and Mrs. Nina L. Abels.

Will Charge Batteries.

We have installed a battery charging outfit and are now prepared to take care of your storage batteries. Will be glad to recharge them at any time or will take care of them for you through the winter months while your car is not in use at a small cost per month.

WOULD HIT MANY CONCERNS

Bill Provides Penalties For Pollution of Streams

(By United Press.)

Indianapolis, Jan. 20.—Manufacturing concerns that use streams to carry away refuse were particularly interested this afternoon when the public hearing of the house committee on judiciary A. opened. The bill considered was that of Representative Deck, provides penalties against the pollution of any stream or river by refuse. It is said this would affect seriously many manufacturing concerns.

FIGHTING RESUMED ABOUT NIEUPORT

Is Marked by Desperate Battle for Possession of Bridge Over Ypres River, French Say

GERMANS TRY TO DYNAMITE IT

(By United Press.)

Paris, Jan. 20.—Desperate fighting for the possession of a bridge over the Ypres marked the resumption of the fighting in the Nieuport region along the seacoast, the war office statement today said.

The bridge was held by the French. Under cover of violent artillery action the Germans tried to dynamite the structure across which the French had made several unsuccessful sorties. French guns were wheeled into action and poured such a hot fire upon the east bank of the Yser that the Germans were forced to withdraw, having suffered heavy loss.

Among The Lawmakers

(By United Press.)

Indianapolis, Ind., January 19.—Sitting within reach of each other in the house are two men as different as well may be. One is young and nervously energetic, introducing bills right and left to abolish this and prevent that, while the other sits quietly watching proceedings and weighing his vote for the bills his colleagues drop into the hopper. Fred L. Feick, lawyer of Garrett, is the nervous one, while M. M. Justus of Bluffton, is the quiet one. Justus says he does not intend to introduce a bill unless some constituent in Wells requests it, but Feick seems to be trying for a record.

Assemblymen are beginning to watch each other with that degree of distrust engendered by the fact that most of them have bills and are wondering just what support they can get for them. The you-vote-for-my-bill-and-I'll-vote-for-yours policy is already cropping out irrespective of party or locality. Those who have introduced no bills are the only ones who can call their soul their own. A bill called the "anti log-rolling bill" has been mentioned to stop this. It would make it a criminal offense to trade votes. This has become a law in Wisconsin.

Representative William A. McCullough of Spencer county, who has introduced a bill for a commission to locate the route travelled by the Abraham Lincoln family through southwestern Indiana, believes that eventually the route would become an improved highway which would be travelled by many tourists. The state of Illinois already has appointed such a commission and Kentucky has been asked to do so. By such co-operation it is believed that the complete trail taken by the Lincolns through the wilderness may be located.

Representative C. F. Creelius of New Albany has his eyes on the governments of two states for his son is Kentucky's secretary of state.

Notice of Administration

Said estate is supposed to be solvent.

January 4, 1915. CHARLES S. CLIFTON, Administrator.

Benjamin F. Miller, Attorney. Jan 6-12-19

SUGAR WEATHER IS NOT FAR AWAY

Within a Month, With Favorable Conditions, Smoke Will Begin to Curl From Camps.

FEW SUGAR TREES REMAIN

Maple Industry Carried on so Quietly That Little Thought is Given to Improvements.

Within a month, the weather favoring, smoke will begin to curl through the frosty air from dozens of sugar camps in Rush county. Several years ago the farmers of Rush county began to husband their sugar trees. As a result a considerable number of sugar groves of goodly size have survived the general destruction of the forests.

Although there are several thousand sugar trees still standing in Rush county, they are but a pitiful remnant of the hundreds of thousands that overspread the county when the first settlements were made.

When the pioneers came into the valley of the Flatrock it was practically an unbroken forest, and the sugar trees were found in strong muster on almost every acre. There have been enough sugar trees destroyed in Rush county to supply the entire state with maple syrup.

The maple industry is carried on so quietly that little thought is given to the great improvement in the methods of making maple syrup. The early settlers learned how to make maple syrup from the Indians, whose methods were of the crudest. The tree was gashed with an ax and an open wooden spout or a chip driven in to carry the sap, which was caught in small wooden troughs, roughly hollowed from a log, placed at the foot of the tree.

The sap was collected in two wooden buckets attached to a shoulder yoke and carried to a big iron kettle, hung over an open fire in a sheltered spot. As the sap boiled down fresh sap was added until, after long boiling, it was reduced to syrup and ready to pour into casks or else was stirred off into sugar for family use, cane sugar being a luxury which few could afford.

Wooden buckets, fashioned by hand, soon took the place of the wooden troughs, and the auger and elder spout were used for tapping, but the picturesque iron kettle, over the smoky, open fire, was in use for many years. The syrup was dark in color and very little was made in excess of an amount necessary to supply the family needs.

As the demand for syrup increased the single kettle was replaced by a chain of kettles on a stone arch, the syrup being dipped from one kettle to another, great care being necessary to prevent scorching. This in turn was followed by the pan, set on a brick or stone arch. This, while an improvement over the kettle, had a drawback—the sap boiled too long, making a dark colored syrup, and it was wasteful of fuel.

With the introduction of the modern evaporator, with its automatic feed, regulating the depth of sap, and a continuous, shallow flow of sap passing from pan to pan, syrup making was revolutionized and became of commercial importance. The operator is able to handle his sap quickly with a great saving both of labor and fuel, and to produce syrup almost as "fair as honey" and of delicious flavor. The metal spout is used now, and the wooden bucket and "keelers" of the early days have been replaced by the metal sap bucket, easily equipped with covers to keep out leaves and rain or snow.

The sap is collected in a metal gathering tank, with a double strainer into the sap. When sufficient sap has been collected, the fire is started and boiling is commenced, as the sap should not be allowed to stand in the storage tank. This is a point where one begins to appreciate a first class evaporator, for the sap begins to boil almost immediately, and there is no bothersome smoke, no wasting of fuel and no dipping of sap, but a steady inflow of cold sap and foaming pans of boiling sap. The steam should be

carried out through the ventilator in the roof over the evaporator.

The progressive syrup maker sells direct to the consumers and by taking pains to have every gallon of syrup he sells up to the standard, he not only holds his trade from year to year, but also adds to his list of customers each season, as any one who once tastes the real genuine maple syrup is sure to recommend it to his friends.

Not long ago a so-called "syrup manufacturer" was prosecuted under the pure food laws of Ohio for making "maple syrup" out of a decoction of hickory chips.

Pure maple syrup is a luxury, and there is an increasing demand for it, a better price being paid now than ever before. The farmer who has sugar maple trees that he can tap will find that his maple syrup is one of the best paying crops on the farm for the outlay. The work comes at a season of the year when other work is not pressing and, even if the farmer does not care to make more than enough for his own use, his boys and girls will remember for years the pleasure of stirring off sugar, or making that most delicious of confections, maple wax, by pouring the hot syrup over the snow.

According to the census of 1900, Indiana produced that season syrup to the amount of 179,567 gallons and 51,900 pounds of maple sugar, which was valued at \$161,935.

AEROPLANES ARE TOWN WRECKERS

Continued from Page 1.

widely known seaside resort and fishing town of Yarmouth. Two persons, a man and a woman, were killed, a number of other persons were injured and much damage to property was done by the raiders in their visit, which lasted less than ten minutes. Four or five bombs were dropped in Yarmouth.

When the attack began the authorities gave instructions that all lights in the town be extinguished and other precautionary measures were taken. Few signs of panic were seen during the raid.

Apparently the raiders, after visiting Yarmouth, flew over Cromer, where they dropped bombs, and then went to Sherringham and Beeston. Turning inland from there they made for Sandringham, dropping explosives missiles there and at Kings Inn, where a boy was killed and a man, woman and a child were injured. Two houses were destroyed.

The damage done in Sandringham has not been reported. It is known, however, that the royal palace was not harmed. At Sherringham a bomb penetrated a house, but did not explode.

Only yesterday Scotland Yard authorities issued instructions concerning measures to be taken by the police and other officials in the event of an air raid.

The police and special constables were called upon in the instructions to hold themselves in readiness for a possible raid on London and the fire brigades also were warned to be in readiness.

The report of the attack on Norfolk County caused considerable commotion in London. Searchlights all about the city were busily engaged throughout the evening, scouring the sky with their rays to pick up any aircraft that might approach. Up to a late hour, however, there was no sign of any aerial visitor.

ARGUMENT POSTPONED.

(By United Press.)

Indianapolis, Ind., Jan. 20.—The condition of Judge A. B. Anderson, of the United States District Court for Indiana today gave his physicians no concern, but they decided he should remain indoors several days yet. For this reason the arguments on the demurrers in the Terre Haute election fraud case, in which 126 men have been indicted, was continued from today until next Tuesday. Judge Anderson has the grip.

UNION MINERS ADMIT GUILT.

(By United Press.)

Ft. Smith, Ark., Jan. 20.—Seven union miners pleaded guilty in federal court here today to indictments charging conspiracy against the United States. Charges against thirteen others were dismissed. The charges grew out of a lock-out at Prairie Creek, Ark.

Life Saving Station

DID YOU KNOW that this town has a Life Saving Station? It is a fact—it has.

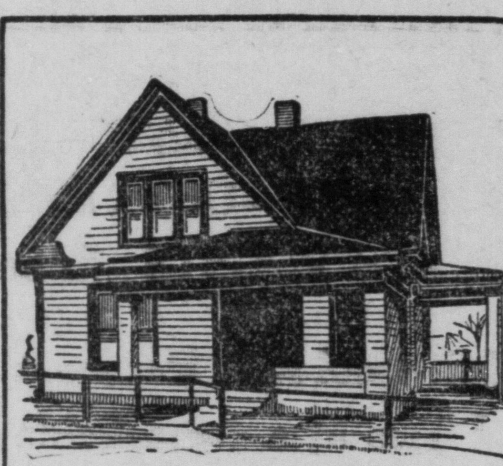

This drug store is the station, and it is a blue ribbon savor of lives.

Every day some one drops in who is "off his feed," and needs something to brace him up, to put new life into him. Our little "bracers in time" restore people to their normal health and thereby prevent sickness which might otherwise result in death.

Our Beacon Light of Life is always trimmed and burning. Come to it when you are in distress.

New York City Fire Horses Will Be Extinct In Three More Years

BY CARLTON TEN EYK,
(Written for United Press.)

New York, Jan. 20.—The New fire horse in 1918 will be extinct as the dinoceras, the dinothys and other animals of that uncertain age. Today there but a thousand horses in the fire department and following the policy of replacing the picturesque animal with the more practical motor driven vehicles, the last horse will have disappeared in three years from now.

Sentiment does not run one, two or three with a municipal government when it decides to be economical and frequent tests have shown that gasoline is more reasonable than oats and that the wear and tear on machinery is less than on horse flesh. The actual figures are interesting.

The tractor which is used to haul the fire engines costs \$3,600 and the upkeep is \$414.60 a year. Three horses to do the same work cost \$1050 for the three and \$900 a year for upkeep. A tractor will last for 20 years; a horse but seven years.

One other advantage of the motor drawn apparatus, an advantage not to be despised in the skyscraper district, is the ease with which all the fire companies may be mobilized in a short time.

The youngsters of the future will have to look elsewhere for imaginative material with the passing of the fire horse.

The European war has touched the local people in an unusual quarter—the Y. M. C. A. In time of peace abroad, it is customary for the secretaries of this organization to spend a great deal of time with the young men between 15 and 45 who come to this country.

Normally, 82 percent of all the immigrants is between those ages. But the warring countries, of course are not permitting able-bodied men to leave their country. Greece and

Italy have followed in the lead of the others and the percentage has been greatly cut down.

Y. M. C. A. workers formerly met and became acquainted with 3000 immigrants a month at Ellis Island. That figure has decreased to 800.

Peter Roberts, secretary for immigration work of the international committee, has made some interesting observations in connection with his labors among the foreigners. He has noted, for example, the effect of the war upon the Poles in this country. He sees a hopeful sign in the fact that the Poles are inspired by the fight which their former countrymen abroad are putting up against the Germans and that the American Poles feel more confidence in themselves as a result.

Commenting upon the often expressed, fear of a tidal wave of immigration after the war is over, Roberts has this to say:

"I see that in Washington they are dreading the flood of immigration that will arrive after the war. Well, I don't believe there is any flood coming, although I believe a torrent of immigration then would be a good thing, as business will boom and there will not only be no unemployment but also a demand for labor that will far exceed the supply."

Notice of Administration

MACK CAUSES MORE SURPRISE

Collins Deal Was Nothing as Compared to Surprise When he
Grabbed off Nap Lajoie.

SURE HAS THE FANS PUZZLED

Says There is Lots of Baseball in
Veteran and he Will Not be
Seen on Bench.

BY IAL SHERIDAN.

New York, Jan. 20.—What is going on under Connie Mack's derby is the problem that has every follower of the horsehide pill, possibly with the single exception of Mack himself, sorely puzzled.

Reams of stuff were batted about the infield of dope when Connie dropped Eddie Collins to the delight of one Charley Comiskey. The Collins sensation came along as a fine young climax to the upset in the Athletics' pitching corps.

Now Mack has 'em guessing again. Having once posed as the friend of the young and ambitious in baseball, he side-tracked the practice of grabbing promising youngsters by taking a clutch on Nap, Lajoie about the time word was going the rounds that the once great Napoleon was about to pass into obscurity.

Balldom remembered that Larry really did his limelight burst when he jumped from the Philadelphia Nationals to Mack's team in 1901 and then swung to Cleveland. It was figured that this latest move was a sort of pension scheme for Lajoie with a job of coaching a few more youngsters Mack is expected to dig from the bush league haunts. But Mr. McGilliouddy killed that yarn. Thirteen years of service

with Cleveland may have worn the edge off Napoleon, Mack admitted, but there is considerable solid baseball man left. Instead of rusting on the benches Lajoie will amble up to the bat when the 1915 season blows open, says Mack.

The Collins-Lajoie double-climax was too much for the sharks. It left them faint. Nothing more that can come out of the camp of the ex-world's champions will create much of the stir. Nobody knows how far Connie Mack will go. No matter how far it is, nobody—hereafter—will express surprise.

WATCHFUL WAITING TO BE HIS POLICY

Representative Robert Kemp Takes
This Attitude Regarding State-
Wide Primary Bill

WILL LET IT REST A LITTLE

(By United Press.)

Indianapolis, Jan. 20.—"Watchful waiting" will be the policy of Representative Robert Kemp of Holland, Dubois county chairman of the committee on elections so far as the Jones state-wide, direct primary bill is concerned. When he came in from the committee meeting today he made that statement to a group of legislators. Kemp said he did not intend to bring up the primary bill until it "had rested a little." Kemp is a teacher by profession, as was the one who coined the phrase. Kemp has not yet fixed a date for the public hearing. Representative Jones of Plymouth, author of the bill, is known to feel that delay helps rather than hurts the chances for his bill, which follows the idea of Senator Kern and the Democratic platform.

MIRROR 125 YEARS OLD.
Frank Buell, living east of the city, has a mirror approximately one hundred and twenty-five years old. It was a wedding present to his great grandfather and has been handed down through successive generations. The mirror is very similar to the one which President George Washington owned and is now one of the nation's relics in the Washington homestead at Mt. Vernon. The same glass is in the mirror as was when it was purchased, but a slight crack has appeared in one corner of the mirror lately. It was purchased about 1790, Mr. Buell says.

MILK QUALITY CAN BE BETTERED

Department of Agriculture Shows That it Depends on Treatment Received all Along Line

PITTSBURGH AN EXAMPLE

Growers of Cotton Are Being Urged to Build More Warehouses to Prevent Country Damage

(By United Press.)

Washington, Jan. 20.—That the quality of milk sold in our large cities depends largely upon the sort of treatment it receives from the time the farmer leaves it at the way station until it has been received at the big city milk distributing market has been clearly established by a recent Federal investigation of the milk supply of Pittsburgh, says the Department of Agriculture in a bulletin just issued.

It was also made clear that the excellence of a city's milk supply depends importantly on constructive co-operation between the milk whole salers and the railroads, in the proper refrigeration of the cans after they are delivered for transit. As a result of the investigation, Pittsburgh, instead of getting milk that on an express or freight car got so warm in a eight or nine hours trip from the country to the city that cans frequently blew up or "geysered" is now getting a product that is put into a modern refrigerator car at the country station and is kept chilled until it is delivered to the home.

After some controversy, referred by the Department of Agriculture, between shippers and dealers a 20 percent advance in the traffic rates on milk in the Pittsburgh district was agreed to, with approval of the Interstate Commerce Commission with the proviso that a rapid refrigeration service be provided by the railroads in the transportation of milk. The case of Pittsburgh is fairly typical of the milk situation of all the large cities of the United States, says the Department, and it urges authorities to begin movements in their prospective districts.

To prevent what promises to be an usual amount of "country damage" to cotton this year, the cotton marketing specialists of the Department of Agriculture are urging growers to warehouse their cotton, or, if this is impossible, to build temporary sheds to protect it. They state that even under normal conditions of dollars from what is commonly called "country damage."

Owing to the war in Europe, the present crop cannot be marketed readily, and an unusually large amount of cotton, they point out, is lying unprotected around gins and on the producers premises. They aggregate amount of country damage therefore, they say, is likely this year to be far greater than usual, and in view of the fact that there is such a large surplus spinners and exporters will unquestionably discriminate sharply and exporters will against damaged cotton.

"It is generally believed" say the experts, "that many new warehouses should be built to house the crop; but a careful investigation by the Office of Markets indicated that if all the warehouses at the ports, in the interior, and belonging to the cotton mills were used, every bale of cotton produced this year could be stored without the erection of additional buildings."

Emphasizing the importance of housing cotton, the specialists say: "Few individuals and few banks are willing to advance money on cotton when it is not properly housed and insured. Those who do are taking a certain amount of risk and at most invariably charge higher rates of interest than the owner of the cotton need pay if his cotton is properly stored. It is also understood that no part of the \$135,000,000 subscribed by the bankers of the country to be loaned on cotton at six per cent will be advanced on cotton which is not properly housed and stored."

Miss Louise Hogsett is recovering from an attack of appendicitis.

Muscel Shoals Project Provides For Improving Tennessee River

BY BURTON K. STANDISH (Written for United Press.)

Washington, Jan. 20.—If you of Niagara Falls, you are acquainted with the fact that its giant power houses can take out 450,000 horsepower from the millions of gallons of water. But you perhaps have never heard of Muschel Shoals in the Tennessee river. Here is a mighty project, from which its backers propose to develop 680,000 horsepower—more than Niagara, more than the combined horsepower of the big manufacturing cities of Holyoke, Manchester, Lawrence and Cohoes.

And this dream—a dream a substantial material backing—is what Majority Leader Underwood of Alabama has proposed to President Wilson for his inspection and careful consideration. This year, \$150,000 is asked in the rivers and harbors bill for initial work on developing this gigantic power. Later, thousands of more dollars will be spent if the dream of the dreamers come true. The government is asked to loan a large amount to a hydro-electric concern to upbuild this power. Its money would be cast on the waters—but to return after many years in full to the treasury.

The significant feature of the plan as it was presented to President Wilson by Underwood was the manufacturer of cyanamid at the Shoals.

Now, cyanamid is neither a breakfast food nor a new German explosive. On the other hand, it is one of the most valuable fertilizer that this nation knows. Yet, strange to say, this nation must depend on Europe chiefly for its supply.

Cyanamid is almost dirt cheap, if one has the facility to make it. In fact, its chief ingredient comes out of the air.

Nitrogen—the most valuable of all fertilizers is contained in large quantities in air. A charge of electricity will draw it out, so to speak. The rest of the cyanamid is merely an admixture of lime.

Still year in and year out this country is paying millions for Chile's nitrates for fertilizers, when they might come out of the air.

The Muscel Shoals project backers propose to manufacture this product extensively, thus furnishing a valuable supply for revitalizing farm lands, and saving this nation the bill Europe and Chile now annually hold against us.

Still another idea of the Muscel Shoals dreamers—is to utilize the

"bauxite" of the southland to manufacture aluminum. At present this ore goes to Niagara Falls for conversion into the lightweight, yet durable metal. If President Wilson and congress approve the plan, this Shoals will be converted into an enormous manufacturing plant, with its raw products in the air and the ground right at hand.

Furthermore, the south's iron and steel business, the Shoals backers say, will be boomed by the use of hydro-electric power for huge furnaces.

Discussing the subject today, Rep. Underwood declared that the proposal would be one of the biggest industrial booms the south could have. He scoffed at contentions of Rep. Fear of Wisconsin that the proposed appropriations would mean a gift on a silver platter to the electric companies. Fear's contention that the Shoals are deteriorating from a navigation standpoint was admitted by Underwood, but he argued that the government ought to lend its aid to a proposal that meant as much as this to the south as to the farming industry throughout the land.

To drink or not drink. And whether to follow out the rules of the high lord of the admiralty and thereby thirst nigh unto death, or by merely infringing on said rules, break them and quench aforesaid thirst. Yep, mates, that's what congress is thinking nowadays in view of the fact that arrangements are under way at present to carry a large portion of the congressional membership through the Panama canal to Frisco when the president goes in March.

There is more than a bit of discussion in cloakrooms as to whether the Daniels "dry navy" order will apply to congress. And incidentally—and strictly privately—the members are saying that they want this trip engineered by somebody who believes that a congressman may if he chooses absorb something stronger than ozone or grape juice.

This, however, is no ordinary "junket." Everybody pays his own expenses, consequently every congressman can have his little nippie if he likes it.

Rep. Khan of California, genial booster of the Pacific Coast and its charms, is a sort of personal conductor for the expedition, and he gives members of congress guarantees that they'll be used all right both on ship and after they hit the Golden Gate.

Tinted Specs For Artificial Light.

For viewing objects illuminated by artificial light when it is desired to see such objects exactly as they would appear in daylight, H. E. Ives, the English physicist, suggests colored glass spectacles. The glass would be covered with a collodion or gelatin surface, stained with aniline dyes carefully selected to filter out the light rays peculiar to artificial light. For each kind of the latter a special formula would have to be followed in preparing the spectacles. These spectacles would be useful in many industries, as, for example, the making of artificial teeth, where color has to be most accurately matched. They might also be lent to visitors at picture galleries by night or on dark days, when artificial illumination is employed, in order to insure the most favorable view of the pictures.—New York World.

Famine.

I am the skeleton in every nation's closet. I hide myself in the dark recesses behind the silent uniforms swaying in the dark. While the guests make merry and the householders ply them with viands at the friendly board I bide my time.

But when the alarms sound and the guests go out to kill then I start forth in the gray shadows of early morning. With my thin wand I touch the cornfields and watch them wither.

And as the sun shines on battlefields my day of triumph comes. No longer afraid to show my hollow face, I stalk through village and city, laying my rattling hands on mother and wife and babe.

My comrade, War, true to his eternal promise, has given me the entry to all societies.—Life.

Brilliant Venus.

When she is at her brightest Venus is so bright that if you knew where in the sky to look for her you could easily see her in the daytime, and at night she sheds so much light that where other lighting is excluded she will cast a plain shadow. She is about five times as bright as Jupiter ever gets, ten times as bright as Sirius, the largest of the fixed stars, and a hundred times as bright as the ordinary first magnitude stars. Her reign is, however, short, for, as she makes three revolutions to the earth's two, she rapidly passes us.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

SENATE "KILLS" ELECTRIC CHAIR

Close Fight on Bill to Abolish Capital Punishment is Certain in Lower Branch.

VOTE IN SENATE IS 27 TO 19

Two Editors Are Champions of Opponents and Those Favoring Measure Defeated in 1913.

(By United Press.)

Indianapolis, Jan. 20.—Capital punishment became a big issue in Indiana when the bill of Senator McCormick's abolishing capital punishment passed the senate, 27 to 19 late yesterday. A similar bill was defeated when it appeared in the senate two years ago. It is believed certain that the house will pass or defeat the measure by a small margin.

One of the strongest advocates of capital punishment is another editor who hails from Michigan City, the city where the executions take place. Senator John B. Faulkner, editor of the Michigan City Dispatch, is as strong against the bill as Senator-Editor McCormick is for it.

McCormick outlined his reasons in terse language:

"Thou shalt not kill." That command its emphatic and obligatory upon all men and leaves no permission whereby two or more persons may do, innocently, what would be a crime in one," said McCormick.

"The taking of a human life by the state is prompted by a spirit of retaliation or revenge. Legalized killing destroys the sacredness of human life. Capital punishment does not protect society, for crimes do not increase in states where this barbarous custom has been abolished. Today eight civilized countries are living in security though they have done away with it. The people of Michigan; Rhode Island and Wisconsin have lived safely without the death penalty for over sixty years. It is abolished with like result in Kansas, Maine, Minnesota, Washington and Oregon. These states show the lowest percentage of murders and Milwaukee has the lowest crime rate of any city in the United States."

Senator Faulkner gave some figures to press his argument, though he admitted that "maudelin sentiment may force the bill through the senate."

"For ten years I have voted against this proposition, which bobs up regularly. It is purely a matter of maudelin sentiment." Faulkner then proceeded to give some of his figures.

There are, he said, 250 murderers serving life sentence in the Indiana State Prison in Faulkner's city. There are one-third more who committed murders who escaped with manslaughter sentences of from two to twenty years. At least 350 of the 1,175 population of the state prison committed murder, he said.

"There are now twelve alleged murderers awaiting trial in Marion county alone. That indicates there must be 200 in Indiana awaiting trial. Doubtless during the past 12 years close to 1,000 men have been murdered in Indiana, yet in the past eight years there have been only 3 executions.

"The conclusion is that if such preponderance of awful crime exists with the electric chair a possibility, the crime would increase with the chair out of the way. Prospective murderers would then say, 'All I'll get is life, and if I'm lucky I'll be out in ten years.'"

There was an element who called attention to the fact that the jury now has the right to substitute the life sentence for the death penalty and who deplored the fact that under the present system of paroles "lifers" seldom remain in prison more than a dozen years. These suggested that the legislature retain the death penalty but pass a law forbidding life prisoners to be pardoned except on new evidence that shows the innocence of the prisoner.

Levi T. Plummer and Nancy A. Plummer have filed a claim against the estate of Mary J. Bowman, deceased, demanding \$2,224.

LUMBERMAN IN SESSION

Hardwood Dealers in Annual Convention in Indianapolis

(By United Press.)

Indianapolis, Jan. 20.—Hardwood lumbermen of Indiana held their annual convention at the Hotel Severn today. The directors met this morning and the general meeting will be held this afternoon. They will be addressed by E. F. Trefz of Chicago representing the Chamber of Commerce of the United States. There will be a banquet this evening.

BILL TO ABOLISH THE "FREE LUNCH"

Representative Davis, Author, Says Custom is "Revolted, Disgusting and Unsightly."

HE CONSULTS DR. J. N. HURTY

(By United Press.)

Indianapolis, Jan. 20.—Because the saloon free lunch is "disgusting, revolting and unsightly" to Representative Edwin C. Davis of Lake county, he introduced a bill today to prohibit it. He said his bill was introduced for sanitary reasons rather than moral reasons.

"I have seen men eat with their hands, and have seen them place the common fork in their mouths before returning to the pan," he said. Davis has been in consultation with Dr. J. N. Hurty of the state board of health several times.

When Representative Davis was told of a custom in saloons in the German neighborhoods of Evansville, where the free lunch is served on a clean plate by a cleanly hausfrau, and where every man gets his own spoon, he said he never had heard of such a custom and might amend his bill to meet Vanderburg conditions as well as those in Lake county.

"THE WELL BORN" SUBJECT TONIGHT

Evangelist at U. P. Church Says Reproach of Church is Too Many Believes Have Not Gone All Way.

IN THE MATTER OF FAITH

"The Well Born" will be the subject of the Rev. Frederick Elliott of Springhill at the United Presbyterian church this evening at seven-thirty o'clock. This is the last week of the meeting and in spite of the bad weather good crowds are attending. The evangelist preached a sermon on "Faith" last night, taking for his text, Rom. 2:22, "Thou Standest by Faith." The Rev. C. M. Yocum of the Main Street Christian church was present and offered played.

The Rev. Mr. Elliott emphasized the fact that our solitary claim to the recognition of God is our faith in His Son. He also made plain that faith is not the abstruse, mysterious, thing it is often supposed to be, but simply consenting to the fact, function, and experience of things.

To believe in Christ is, therefore, to accept the fact of Christ, the mission of Christ and enter into his fellowship," he said, "He who consents to the fact and function, but rejects the fellowship, is morally mad. The reproach of the church is that too many professed believers have not gone all the way in the matter of faith. Fellowship with Christ means mutual confidence between Him and us. Can you trust, Christ and can He trust you?" and can He trust you?"

The Rebeccas will meet at the Bodine shoe store tomorrow morning at nine o'clock and attend the funeral of Mrs. Laura Sherwood in a body.

AUTO ROBBERS USED DISCOVERED

Machine in Which Clover Seed Thieves Made Good Their Escape is Finally Located.

GUILT IS NOT PLACED YET

The automobile that was used by the thieves in making their escape after stealing the five bushels of clover seed at the J. M. Amos farm, south of the city, Monday night, was found yesterday, but so far the guilt has not been placed on anyone in particular as it has not been definitely determined who drove the machine. The clover seed was scattered on the floor of the car and the officers and Mr. Amos believe that with this clue the guilty parties will soon be rounded up. The machine was seen to leave this city with three men in it.

Mr. Amos today decided to take no more chances with losing the valuable clover seed and disposed of it to a firm in this city. He had the seed weighed and placed in sacks. Two sacks were taken from the barn by the thieves Monday night.

EXPLANATION DEMANDED

State Department Wants to Know Why Vessel Was Detained.

(By United Press.)

Washington, Jan. 20.—The state department today on receipt of a report from Ambassador Gerard of Berlin of the British detention of the cotton steamer Greenbrier asked British Ambassador Spring-Rice to obtain from his government a full explanation of the incident.

ARE FIGHTING AT BIG ODDS

Turks Defend Themselves Against Larger Forces, They Say.

(By United Press.)

Constantinople, (Via Berlin), Jan. 20.—The Russian offense, moving southward in the Caucasus continues, it was officially admitted today, but the war office declares the Turks "are obstinately defending themselves against superior forces."

PRESSURE ON SWEDEN

Triple Entente Would Force Transit of War Materials.

(By United Press.)

Berlin, (Via Sayville, L. I.), Jan. 20.—Swedish newspapers report that the triple entente is bring strong pressure to bear on Sweden to enforce the transit of war material to Russia, according to a statement given out today by the German press bureau.

MAY WHEAT UP AGAIN.

(By United Press.)

Chicago, Jan. 20.—May wheat resumed today its sensational advance interrupted last Friday and after opening today at \$1.39 3/4 jumped to \$1.42 7/8 at 1 p. m., with heavy export buying. It closed at \$1.43. Corn closed at \$1.58 5/8.

DISTILLER KILLS HIMSELF.

Chicago, Jan. 20.—Charles Ledowsky president of the Fox River Distilling company, killed himself today while riding on a train approaching Chicago. His company was recently placed in the hands of a receiver and he was wanted as a witness in investigations of reported forgeries.

DUTCH VESSEL HITS MINE

(By United Press.)

Amsterdam, Jan. 20.—A Dutch naval motor sloop was sunk by a mine in the Scheldt river today. An officer and four men were killed.

SENATE AGAINST "SALARY GRABS"

Adopts Report of Committee Recommending Increase in Sheriff's Salaries and Board Fees.

(By United Press.)

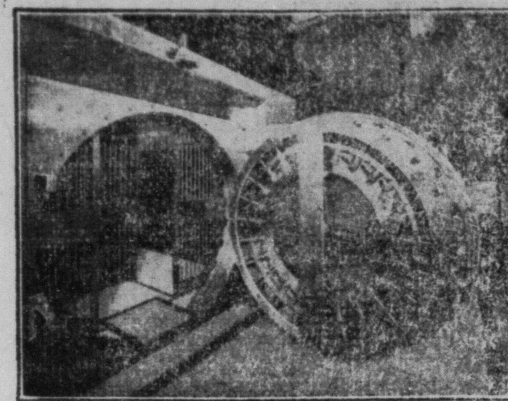

Indianapolis, Ind., Jan. 20.—The senate today set its fact against so-called "salary grabs" by adopting a report of the fees and salaries committee which recommended death for Stephen B. Flemming's bills to increase the salaries of sheriffs in Allen, St. Joseph, Vigo and Lake counties to \$8,200 and increasing fees of all sheriffs for boarding prisoners from forty to sixty cents a day.

The house passed the Field bill reducing the minimum size of hooks on front lines to seven-sixteenths of an inch. The bill now goes to the senate.

New bills introduced in the house today: Harris, reducing the pay of traveling examiners of the state board of accounts from eight to six dollars a day; Cleary, providing that election inspectors shall transmit under oath the voted and unvoted ballots in sealed bags to the county clerk and that all pencils used in voting shall be destroyed before the vote is counted.

Rushville, Indiana, Wednesday Evening, Jan. 20, 1915.

Single Copies, 2 Cents.

MAY HAVE PAID FIRE FIGHTERS

Rushville Will Likely Do Away With
Volunteer Department if Ordinance
Passes.

WILL BE INTRODUCED SOON

Council Seems to Favor Five-Man
Department Because All Volun-
teers Are Not at Every Fire.

First steps towards a paid fire department were taken last night by the city council when the city attorney was instructed to draw up an ordinance providing for the dismissal of all volunteer firemen and the employing of a third man for the central station.

If the ordinance is passed the fire department will be composed of five members, including the chief. The matter was brought to the attention of the council by Fire Chief Easley.

The fire chief believed that a more efficient fire department would result with the employment of a third man at the station. All of the volunteers would be released and with a five-man department assurance would be given that all would be at a fire.

With three regular firemen, the chief, and the engineer for the fire engine Fire Chief Easley believed that the city would be better protected than with a volunteer department of nine men. The records of the department show that about half of the men attend fires and there was no satisfaction or working method in this kind of a system. With fire men and with the aid of persons, who would help in case of a fire, Easley believed greater protection could be given. In this manner the company would be composed of a chief, an engineer, a driver, a nozzle man and a man for the hydrant. Under the chief's plan the driver would be a fireman in case he was needed could turn the team over to some one while fighting the fire.

Under the plan as discussed last night the men at the fire station are kept there on duty practically all the time and with three men the firemen could stay in shifts and thus enjoy a little freedom. Several of the council favored Easley's plan and believed that the city would have to come to a paid department sooner or later. The ordinance providing for the change in the department will probably be introduced at the next meeting.

While discussing the fire department the council ratified the appointment of Carl Foust as driver of the department and instructed the city clerk to order a fire gong for the chief.

Superintendent Mahin of the water and light plant in a brief statement to the council showed that the city had saved \$1,262.89 last year in coal alone at the plant. His annual report is not quite ready for the council but he gave a few items to show that there was a saving there last year. In 1913 he stated that the plant used 8,416,450 pounds of coal at a cost of \$9,678.97. In 1914 the plant used a total of 7,650, 500 pounds of coal or a saving of 765, 950 pounds at a cost of \$1,262.89. With this saving the output of the plant was increased twenty percent.

Four bond ordinances for sidewalk improvements amounting to \$944.85 were passed under the suspension of the rules. The bond ordinances were for the improvement of the west side of North Oliver street, from Ninth to Eleventh street, amounting to \$268.46; for both sides of Ninth street, from Perkins to Willow street, amounting to \$258.59; for the improvement of the north side of West Eighth street from Willow street to George,

STRIKES HEAD ON STOVE

Mrs. D. W. McDaniel Trips. While
Ironing and is Hurt.

Tripping over a dress that she was ironing, Mrs. David W. McDaniel fell against the stove at her home in West Third street this morning, cutting a deep gash in her head. Mrs. McDaniel was alone in the house at the time and almost bled to death before assistance reached her. Her head struck a sharp corner of the stove and while the injury is not considered serious it was quite painful. Several stitches were required to close the wound.

COSTS MORE THAN AMOUNT DEMANDED

Court Fees in Suit of Clell Maple
Against Lafayette Johnson Will
Total About \$50.

FIRST HEARD BY A SQUIRE

An instance where the court costs will amount to more than the amount demanded in the suit was seen today in the account suit of Clell Maple against Lafayette Johnson, which was tried in the circuit court before Special Judge A. J. Ross and a jury. The demand is only \$45 and the costs will amount to nearly \$50. The case was originally tried before Squire Kratzer and taken to the circuit court by Maple when the court found for the defendant.

Maple alleges that Johnson owes him a balance on an account for service to Dale Axworthy, a horse that at one time was managed by Maple. The case was expected to go to the jury late today. The following is the jury: A. J. Farthing, Walter C. Reinheimer, Guy Russell, E. E. Polk, William Schunkle, Ira B. Hite, Charles Newhouse, David Campton, John Russell, Sabert Offutt, Charles Sefton and Ellis Culbertson.

FLOOD PREVENTION BILL INTRODUCED

Senator Stephen B. Fleming of Fort
Wayne Proposes Water Control
Districts.

MEMBER OF THE COMMISSION

(By United Press.)

Indianapolis, Jan. 20.—Senator Stephen B. Fleming of Fort Wayne, today introduced his flood prevention bill, which represents the efforts of flood prevention commission. Fleming was a member of the commission.

The bill proposes to establish water control districts, the commissioners of which would have the widest powers to control drainage water courses and water supply. They could also issue bonds and levy taxes on the benefited property.

The attorney general, the auditor of state and the president of the state school of engineering would compose the state water control, according to this bill. The water control districts the board would establish would have powers of eminent domain superior to all other corporations, public and private. Such districts could be organized by the board on petition of 500 free holders of the district or representatives of half the value of property.

RUSHVILLE IS NEAR THE TOP

Only Few Cities in Indiana Make
Larger Contribution For Relief
of Belgians.

TO NORTHWESTERN MILLER

Indiana Contributes 4,651 Barrels of
Flour and Ranks Third in List
of State in Union.

Only a few cities in Indiana did better than Rushville and vicinity in the Belgian relief movement, according to a preliminary report issued by the Northwestern Miller, of Minneapolis, Minn. The comparisons apply only to the fund conducted by the Northwestern Miller because there were several other Belgian relief movements. The one to which the people of Rushville and vicinity gave, however, was one of the largest and most important ones.

The report which has been received by C. G. Clark & Sons shows that thirtyeight Indiana cities aided in the work and that the largest contribution of 1,073 barrels of flour came from Terre Haute. Lafayette sent 228 barrels and Liberty took third place sending 225 barrels. Noblesville contributed 210 barrels, which the local contribution amounted to 185 barrels, augmented by sixty-five barrels given by the special fund sent to this state by the Minneapolis Miller. This made a total of 250 barrels, or a car load, shipped from Rushville and made by C. G. Clark & Sons.

A summary of the report shows that Minnesota, the home state of the Northwestern Miller, made the largest contribution of 28,248 barrels of flour. Ohio came next with 4,861 barrels but was not far ahead of the Hoosier state which had 4,651 barrels to her credit. The entire contribution to this movement amounted to 70,780 barrels of flour, or 283,120 sacks or 14,156,000 pounds.

William G. Edgar, editor, of the Northwestern Miller, assumed personal responsibility for the distribution of the flour in Belgium and is giving his personal attention to the work. He is assisted by the American Ambassador and other United States officials and agents.

In speaking of the relief movement in which the people of this city had an important part, Mr. Edgar in his first report says:

"The Northwestern Miller itself is but the agency through which this good deed is being accomplished; it only reflects the generosity of those whom it represents. It takes no credit to itself; the full amount thereof belongs to those who in response to its appeal worked with so much enthusiasm and devotion for the cause presented to them."

"It is impossible for the Northwestern Miller to find words strong enough to show its profound and heartfelt gratitude to those who have answered its call with such spontaneous and prompt generosity, who have done all and more than it asked, and who, had time and circumstances permitted, would have given much more than even the great amount now subscribed."

"To those who have contributed to this fund, to every miller who first gave himself and then invited others to join him, to every newspaper that helped the millers in their work, to every subscriber who gave money to be converted into flour, to every agent and agency that joined in making this movement a success, the Northwestern Miller desires to express its sincerest thanks. May the good God prosper all of them and may this bread cast upon the waters return to those who gave it a most bounteous and lasting blessing."

RUSHVILLE MAN ONE OF OFFICERS

Frank Priest Will be Master of Arms
at Annual District Meeting of
Knights of Pythias

TO BE AT RICHMOND FRIDAY

Corps of Officers from Lodges of
District Will Conduct Work.
Program is Announced

Frank Priest of Ivy Lodge No. 27 will act as Master of Arms at the eleventh district meeting of the Knights of Pythias to be held in Richmond Friday. A corps of officers from the lodges of the district will conduct the work at the district meeting and Mr. Priest was selected from the local lodge for this chair. The complete program for the meeting has been announced by Roy Fry, deputy grand chancellor. Several hundred delegates and members from over the district are expected to attend. The usual plan of the district meetings will be changed this year and the public meeting will be held at night instead of in the afternoon. Coeur De Lion Lodge, No. 8 will act as host to the members of the district.

At two-thirty o'clock a delegates meeting will be opened in regular lodge form. Roll call, appointment of committees and other routine of annual meetings will follow. At this session all the business of the district will be taken up. Besides Mr. Priest other members of the local lodge who have signified their intentions of attending are Charles Osman, Floyd Hogsett and Samuel L. Traube.

The public meeting will open at seven-thirty o'clock in the K. of P. temple by a number by the Weisbrod Saxophone orchestra. The program follows:

Vocal solo—Mrs. Charles Ingelman. Address of welcome—C. H. Hoelscher.

Response—Harry Wade, Grand Keeper of Records and Seal.

Address—Robert A. Brown, Grand Chancellor of the Pythian Indiana Domain.

French Horn solo—Phillip Gates. Short address by visiting officers.

The list of officers who will conduct the meeting is as follows:

Roy C. Fry, Coeur De Lion lodge No. 8, Richmond, D. S. C.; Orle M. Brown, Winchester lodge No. 91, Winchester lodge, P.; Frank Priest, Ivy lodge No. 27, Rushville, M. of A.; Lewis Harrell, Liberty lodge No. 114, Liberty, I. G.; Harry Wade, Curzan lodge No. 111, LaFayette, K. R. and S.

IS MARRIED FOURTH TIME

Edward Fisher Takes Wife Married
Twice Previously.

(By United Press.)

Edward Fisher, the Milroy notary and attorney, and Mrs. Jeffie B. Ledman were married late yesterday afternoon by the Rev. C. M. Yocum at the Main Street Christian church parsonage. It was Fisher's fourth marriage and her third venture. Fisher is seventy-one years old and his bride is fifty years old. Mr. Fisher obtained a divorce from his third wife in 1913. Mr. Fisher became "famous" in Milroy by advertising that he could "write on a typewriter and talk at the same time."

Jacob Clifton has filed a petition against the estate of Samuel F. Clifton, deceased, to sell real estate.

NO PRIMARY LEGISLATION

Senator VanNuys Democratic Lead-
er, Expresses That Belief Today

(By United Press.)

Indianapolis, Ind., Jan. 20.—Senator VanNuys, Democratic floor leader, said today that the Democrats of the senate would caucus Thursday or Friday on the 22 Stotenberg amendments proposed for the state constitution. The primary bill would not be considered at that time, he said.

"In fact," he said, "I do not expect any primary legislation to be passed this session."

MORMONISM CRITIC WILL SPEAK HERE

Former Senator Frank J. Cannon of
Utah Will Deliver Two Address-
es Here Sunday, March 7.

IS INVITED BY MINISTERS

The Rushville Ministerial association has accepted the offer of the National Reform association of Philadelphia to send Frank J. Cannon, former United States senator from Utah and bitter enemy of Mormonism, to this city for two addresses the first Sunday in March, which falls on the seventh day of the month. Former Senator Cannon is one of the best known authorities in the United States on Mormonism, having been a Mormon himself once upon a time. He will speak at a Men's Big Meeting in the afternoon and at a union meeting of the churches at night. The places for the meetings will be announced later.

It is said that Former Senator Cannon, who was a Mormon at the time, worked more than any other man in Utah to gain the admission of the territory as a state, under the condition, it has been reported, that the Mormons should abolish polygamy. When Utah became a state the church did not live up to its promise, according to the story, and Mr. Cannon renounced it. He has contributed many magazine articles and is leading authority on this topic.

ALL FIVE PLEAD GUILTY

Tramps Charged With St. Paul Rob-
bery Sent to Prison.

Shelbyville, Ind., Jan. 20.—The five tramps charged with robbing the Benning Brothers store at St. Paul late yesterday afternoon pleaded guilty before Judge Blair to charges of petit larceny and all of them were sentenced to the Indiana reformatory for not less than one year nor more than eight. Each was fined five dollars and disfranchised for a period of eight years. Before the plea of guilty was entered to the petit larceny charge the prosecutor had withdrawn the charges of burglary that were originally filed against the men. Sheriff Terry stated he would likely take the men to the reformatory today.

SAVING ITS INDIVIDUALITY.

Washington, Jan. 20.—President Wilson's grandson will be named just plain "Francis Sayre." His mother and father decided not to give him a middle name and follow the president's desire to preserve his individuality by not giving him the title of Woodrow or Wilson.

AEROPLANES ARE TOWN WRECKERS

Growing Conviction That Zeppelins
Did Not Make Daring Night
Attack Calms Londoners

DOUBT EXPRESSED TODAY

Yarmouth Certain Invaders Piloted
Aeroplanes Which Dropped
Bombs on English Coast

(By United Press.)

London, Jan. 20.—Growing conviction that aeroplanes, not Zeppelins, made the daring night attack on the east coast last night, did much today to calm the minds of Londoners.

Despite the definite statements of several persons that they saw Zeppelins, officials of the city visited by the raiders frankly expressed their doubts. The police at Yarmouth declared today the outlines of the invaders were plainly visible in the early evening. They are positive the raiders piloted aeroplanes.

The raid of the German aircraft has long threatened and has kept London in a state of turmoil. The aeroplanes attempted to blow up with bombs the King's royal residence in Sandringham, County Norfolk. King George and Queen Mary who had been staying at Sandringham with their family, only yesterday returned to London to resume their residence in Buckingham Palace. It is reported that bombs landed in the King's estate. Six towns were shelled by the raiders.

It is not definitely known whether the raiders were Zeppelins or aeroplanes, but Zeppelins were reported yesterday afternoon as passing over the North Sea in a westerly direction, and there is an inclination to believe these were the raiders.

A Zeppelin is reported to have been brought down by the fire of a warship at Hantsdon, a few miles north of Sandringham, but this has not been confirmed and is doubtful.

Reports reaching London are to the effect that a squadron of six air craft crossed over the North Sea and on reaching the coast line separated, some of them taking a southerly direction and others an opposite course. These reports, however, have not been confirmed.

The night was quite calm, but very dark and cloudy, which made it impossible for the people in the towns over which the aircraft passed to distinguish even the outlines of the raiders, though the whirr of their propellers and the droning of their motor could be heard distinctly.

Bombs were dropped in Yarmouth, Kings Lynn, Sandringham, Cromer, Sherringham and Beeston, and everywhere, except at Beeston, casualties and damage to property resulted.

The first place visited was the

CHILD'S CONDITION WORRIED PARENTS

Little Daughter Very Delicate—Had No Strength—Made One of Healthiest Children in Town by Vinol.

Crestline, Ohio.—"I contracted a hard, chronic cough, and was in a weak, nervous, run-down condition for years. I was losing weight all the time and had no ambition. I have a small family of three, and it was hard for me to keep around and do my work. I took different medicines, but they did not relieve me to any extent. Finally I heard about Vinol and tried it, and I am happy to say that it has restored me to health and strength, and my cough is all gone and I feel fine now."—Mrs. H. H. CARLISLE, Crestline, Ohio.

It is the healing and strengthening properties of the extract of cod's liver and tonic iron combined in Vinol, which built up Mrs. Carlisle's health, and because of chronic coughs, colds, a weak, nervous, run-down condition, we agree to return their money.

People everywhere are praising Vinol because they have found it just what they needed to drive away lingering coughs and to build up their health and strength.

F. B. Johnson & Co., Druggists, Rushville, Ind., and at leading drug stores everywhere.

AUCTION.

I will sell the following goods at public auction, next Saturday, January 16th, at 10 o'clock at No. 1023 North Arthur street, Rushville, Indiana, six dining chairs, dining table, dresser, chiffonier, Vernice Martin bed, 10-6x12 rug, pair lace curtains, 2 rockers, library table, mattress, set of bed springs and other household articles. SHOWS REALITY BUSINESS LIGHT

Real Estate Transfers Reveal That Only \$32,890 Change Hands in First Half of Month.

FEW PRICES NOT MENTIONED

Largest Single Deal of Period Calls For an Exchange of Only \$8,800 For Richland Land.

That the reality business in Rush county was dull the first half of January is revealed by the real estate transfers for that period. Where considerations are mentioned—and there were very few transactions where the price paid was not given—the total sum changing hands amounts to only \$32,890. The largest sale of the first sixteen days of the month was \$8,800 paid for an undivided interest in a farm of 160 acres in Richland township. The transfers follow:

Franklin J. Stamm and wife, et al. to Angeline Stamm, lots 5 and 12 in the original plat of Vienna (now Glenwood) \$1.00

Nancy E. Dora to Florence W. Perkins, lot 11 and a part of lot 9 in Samuel S. Durbin's addition to Vienna (now Glenwood) \$400.

Board of Trustees of Indiana Soldiers' & Sailors' Orphans' Home to the State of Indiana, for the use of the said Board of Trustees—quit claim to 242 acres in Center and Ripley townships. For a valuable consideration, to comply with a state law.

Adda E. Hudelson to Frank M. Hudelson, 45 acres in Center township, \$7,000.

James M. Gwinn and wife to Ben L. McFarlan, part of lot 107 in the original plat of Rushville, \$1500.

Ben L. McFarlan to Rebecca

Gwinn, part of lot 107 in the original plat of Rushville \$1500.

John Gwinn and wife to Charles W. Wagoner, lot 56 in Berkley Park addition to Rushville, \$195.

Stephen B. Adams, to Oscar E. Hayes, undivided one-fourth of 3 parcels of real estate in Rushville, South Main street, \$1, etc.

Warren W. Robbins and wife to Walter O. Bragg, lot 66 in H. G. Sexton Heirs addition to Rushville, \$1 and exchange of property.

John W. Logan and wife et al to Nettie Willis, south one-half of lots 15 and 16 in James W. Trees' first addition to Manilla, \$1400.

William Demoss and wife to Jas. and Carrie Demoss, lots 23, 22, 24 and 25 in the original plat of Henderson, \$450.

Nathan Arbuckle, et al to The Homer Canning Co., parcel of land in Homer, \$25.

The Homer Canning Co. to Dessie Hilligoss Lower, lot 100 feet by 140 feet in Homer, \$500.

John R. Bennett and wife to Orbie Short, quit claim to a lot adjacent to I. P. Root's second addition to Milroy, \$1800.

David F. Hite and wife to Jacob W. Hite, undivided interest in 160 acres in Richland township, \$2200.

George W. Hite and wife, et al. to Jacob W. Hite, undivided interest in 160 acres in Richland township, \$8,800.

Lewis E. Harecourt and wife to James H. Martin, lot 13 in the new addition to the Milroy cemetery, \$20.

Chase G. Cross and wife to John F. Cross, undivided two-thirds interest in 80 acres in Jackson township, \$6,000.

Eliza Brison and husband to Thomas K. Mull, lot 4 in Trees and Spencer's addition to Manilla and part of lot 3 in the original plat of Manilla, \$250.

Sarah E. Piper, et al, et Merle G. Piper, 39 1/4-100 acres in Orange township, for mutual partition.

William M. Blackledge, to Henry Miller, 5 acres in Union township, \$1200.

Oma E. Thrall and husband to Richard Whiting, lot 53 in Frank McCorkle's addition to Milroy, \$100.

MAY HAVE PAID FIRE FIGHTERS

Continued from Page 1.

road, amounting to \$171.44, and for the north side of East Ninth street, from Willow street to George, amounting to \$246.36.

Another one of those old claims, which was passed along to this council by the Black administration came up last night. Ed Beer had a claim for work on installing a water meter and after putting up his deposit decided to put the meter in the basement of his home. According to the claim he never received his money. The claim was never allowed by the old council and was one of those pushed off on this council by the famous "riders" put through on the last day of the Black administration. No action was taken on the Beer claim last night.

M. J. Ogden submitted a claim for forty-five cents, alleging that the city beat him out of this much time in installing the water meter. The city charges forty-five cents an hour and Ogden claimed that his wife sat time on the men and that they worked only one hour. The men "turned in" for two hours and they were upheld by the council for the claim was turned down.

The city is making preparation to get the ordinance record in shape and the city attorney will draft a new parade and show ordinance. The city remembers the trouble last summer when a band from a stock company playing outside the city was compelled to play a license to play on the streets of the city and rather than go through a similar experience the coming summer, will have the law in shape and waiting for the show.

The Ladies of the M. E. church will present the play, "How the Story Grew," in the auditorium of the high school building at Orange, Friday night, January 19. Music by Wagoner's Orchestra. Admission 10 and 20 cents. 2681s

WAR NEWS FEATURE

BY P. M. SARLE.
(U. P. Staff Correspondent.)

London, Dec. 28: (By mail to New York)—Hustling methods were expected from the members of the Canadian contingent now completing their training on Salisbury Plain, but even his comrades admit that Private Victor Albert Baker was "going some" in providing himself with a wife in six weeks. The more so that the bride is a Belgian refugee, whose very slight knowledge of English was acquired in that period, while Baker still has no French.

Baker, who is 23 years of age, was an engineer on the Canadian Pacific railway, and threw up his job to join the Canadian army at the outbreak of the war. His father is also a member of the contingent. Six weeks ago another Canadian soldier introduced young Baker to his cousin, a Belgian girl of twenty, who has been compelled to flee from Antwerp, when the city was besieged by the Germans.

Bertha Vendon Bosch had been a clerk in one of the big hotels, and when she came to England she was practically penniless. That didn't worry Baker who prides himself on being able to pick out a sound reliable article on sign. Nor did the language question worry him, though that was a serious difficulty for he knew no French and Bertha's English was of the most primitive kind.

At their second meeting after the introduction Baker proposed marriage, and the Belgian girl, who had already begun to entertain kindly feelings for the handsome young soldier, though surprised by his impetuous avowal, consented to accept the engagement ring with which he had already provided himself. Baker had his military duties to perform so they saw each other only twice after that.

Then, the other day, he got thirty-six hours leave from camp, and armed with a marriage license, he and Bertha proceeded to Linden-grove church, in the south London district of Camberwell, where the latter changed her name to Baker. The honeymoon was limited to one day, which was spent in the neighboring district of Beckham, most of it at movie-palaces.

The unconventional wedding was attended by Baker's father, in khaki like the bridegroom, and the bride's uncle and aunt, both of whom are Belgian refugees. Bertha's father and mother are stranded somewhere on the continent so know nothing of their daughters romance.

The mayors of Camberwell attended the wedding breakfast, at which one of the guests offered the bride and bridegroom some amusing advice: "If you don't learn each other's language, you will be the happiest man and wife in the world."

Mrs. Baker is to go to the home of her parent's in Canada, to await his return from the war.

"A" Division, Metropolitan Police, which formerly had the exclusive privilege of guarding the royal palaces—Buckingham Palace in particular—has lost its monopoly, for, somewhat to the disgust of "Bobby" the "regulars" have been reinforced by a strong detachment of special constables. These "specials" are no ordinary volunteer police for they include peers of realm, members of the House of Commons, and over 200 barristers, doctors, actors, stockbrokers, etc.

Lord Claude Hamilton, M. P. is in command, and the "Headquarters Detachment of the Metropolitan Special Constabulary" muster 600 strong. The members perform police duties voluntarily, and give a certain number of hours each week. They wear ordinary civilian clothes, with an armband, and carry a truncheon and whistle. No revolvers are allowed.

When the "special police" were first enrolled a "headquarters" detachment was formed and the men proved themselves so useful that the majority were taken over by the Admiralty, to work the searchlights and anti-airship guns which were mounted in various parts of London while others were attached to the detective force. For the new body just formed for palace guard and other important work of a highly confidential nature, only 600 were needed, but there were over 1,000 volunteers. 230 of the disappointed ones were given commissions in the army and the navy.

WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa. — "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound." — Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women

for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

How's This?

Sold by all Druggists. Take Hall's Family Pills for constipation

REAR END OVERHAUL

BRAKE RELINING

HOW DOES THE REAR AXLE OF YOUR CAR "SOUND" AND ACT?

Is it noisy, loose and does it seem to "gather together" before the car moves, instead of acting noiselessly and as a single unit?

Every car's "rear end" should be overhauled once a year and the brakes should be relined—if you want to enjoy safe, "worry free" motoring and have brakes that HOLD.

Now is the time to have US do the work—here in a first class shop where ALL the work is done by skilled mechanics. Our Charges are Moderate.

—Miss Norma Smith was a passenger this morning to Indianapolis and will attend the Ona B. Talbot subscribed concert tonight at the Murat theater.

Society News

Miss Frances Noble, daughter of Alvin Noble, and Ora McMichael were married Tuesday afternoon by the Rev. C. M. Yocum at the Main Street Christian church parsonage.

* * *

Mrs. Nina Ahels and Dr. J. G. Lewis were quietly married this afternoon at four o'clock at the Main Street Christian church, by Rev. C. M. Yocum. The ceremony was witnessed by only a few friends. They left immediately for Cincinnati, and after the wedding trip of a few days, will be at their newly furnished home, 511 North Jackson street.

Amusements

The Princess will show the nineteenth episode of "The Million Dollar Mystery" for the first picture tonight. The title of this one is "The Underground River" and it is said to be full of thrills and as exciting as all of the series. The other picture is a Biograph drama entitled "A Better Understanding." Irene Hawley is featured in this one. Tomorrow night the two reel feature "The Senator's Brother" will be shown and on Friday, matinee and night the big feature "A Florida Enchantment" will be shown. This one is in five acts and is a real feature.

The Gem offers a two part Eclair drama "The Dupe" for the first picture tonight. It is a story of the sale of fake mining stock and is a thrilling drama telling an interesting story. The other is a Victor drama entitled "Out of the Valley." J. Warren Kerrigan is featured and plays the part of the supposed outlaw. As an extra attraction tonight Floyd Williams and Laurence Mitchell, ragtime piano players will appear.

The Mystic will show a two reel Pathe drama "Conquered Hate" for the first picture tonight. Vivian Pates and J. Arling are featured and it is said to be a dramatic production. The other is an Essanay comedy "Sophie and the Man of Her Choice." Tomorrow night Helen Gardner feature picture "The Strange Story of Sylvia Grey" will be shown. Miss Gardner is assisted by Charles Kent and an all-star cast of Vitagraph players and it is said to be a wonderful drama.

CHILDS WELFARE EXHIBIT IS SET FOR FEBRUARY.

What is the relative value of a human baby and a baby pig. Which should be more carefully nurtured, growing youth, giving promise of well developed manhood or womanhood, or a fine young heifer from registered stock?

Should Indiana pay as much attention to infant mortality as it does to the hoof and mouth disease? Should Indiana boys and girls be given as least as much care in their mental and physical development, as a stock raised gives to a thoroughbred horse which he is training for a world's championship?

These are a few of the many questions that will be asked and answered at the State Child Welfare Exhibit to be held in Tomlinson Hall, Indianapolis, February 16th-25th, under the auspices of a committee made up of members from every section of Indiana.

In preparing this exhibit, which will be built so that it can be sent throughout the state, Indiana is doing a thing never before attempted in this country. True, there have been child welfare exhibits, but never on the scale of the one proposed by Indiana.

It will not be an exhibit of "dry" facts presented in an uninteresting way, but the exposition will teem with attractive features embracing every phase of Indiana child life.

Folk dances, music by bands of boys and girls, drills by Boy Scouts and Campfire Girls, babies playing in a real kindergarten, exhibits and demonstrations of work done by children of the upper grades and high schools, special programs of entertainments and other interesting events are on the schedule for the ten days.

Every parent in Indiana is especially invited to attend the exposition. There will be rest rooms for the mothers, where they will meet hundreds of other mothers, all interested in one common topic, there will be conference rooms for the fathers where they may discuss the future of their sons. In short, nothing will be left undone which may rebound to the proper development of tomorrow's Hoosier citizens.

ARGUMENTS IN BALL SUIT STARTS TODAY

Federal League Attorney Declares Draft Rule Strikes at Heart of American Institutions.

SUIT UNDER ANTI-TRUST LAW

(By United Press.)

Chicago, Jan. 20.—The draft rule was termed "gambling, speculating and a pernicious practice striking at the very heart of our American institutions" by Keene Addison, attorney for the Federal League, in his argument before the federal court when the suit to dissolve the American and National Leagues began here today. The suit is brought under the anti-trust law.

"By means of it," he declared,

"the major leagues send one player to the minors to be farmed out and then by August 15 either get a better player for him or take the same man back."

He declared the powers of the national commission were absolute and welded without mercy until the players' fraternity worked reforms. He pointed out that, in 1913, 61 appeals were denied out of a total of 76 made by players.

THE GEM

SOME ORIGINAL RAGTIME BY TWO RAGGEDY RAGS

As an extra attraction tonight, we will have Profs. Floyd Williams and Laurence Mitchell, crack ragtime piano players, who are demonstrating an up-to-date line of popular music from the Ass't. Music Publishing Co., Cincinnati, Ohio.

"THE DUPE"

A two part Eclair special. A strong, well developed story of how two crooked business men make a dupe of a young fellow who inherits a fortune. Later the fake mining stock develops into the real thing and the hero is richer than ever. **ROBERT FRAZER** and **MILDRED BRIGHT** play the leads, while **Helan Martain** plays the daughter of one of the crooks. This is an unusually strong offering, working up naturally and easily to a fine climax.

J. WARREN KERRIGAN in Victor Drama

"Out of the Valley"

Kerrigan plays the supposed outlaw. He saves the sheriff's life during a realistic attack by Indians on the wagon road. The settings are typical and the story winds up very pleasing.

TOMORROW

It Will be Principles

More and more it is become ap-
parent that the voters in 1916, when
they go to vote for president, cast
their ballots more for the principals
for which the candidate stands than
they will for the man. It has been
the tendency during the last few
years to forget fundamental policies
of government when they have been
overshadowed by personalities. But
millions of men who two years ago
had steady employment and are now
either out of a job or are working
only part time have learned a lesson
one that they will not forget soon.

A Washington dispatch says that
one of the Progressive members of
congress has been exhibiting a letter
from a Progressive friend out west
who wrote as follows:

"Two years ago I voted for the
greatest man this nation ever pro-
duced. Theodore Roosevelt, but two
years hence, I pledge you my word,
no matter who he is, just so he is
a Republican, he gets my vote.
When Wilson tells us that the Re-
publican party has not had a new
idea for thirty years, he insults the
intelligence of some seven million
voters."

Stolen Goods

Now comes forth the information
that Ralph W. Moss, Indiana con-
gressman, has swiped bodily the tar-
iff commission bill which ex-Con-
gressman Nicholas Longworth of
Ohio introduced in the fifty-first
congress. And President Wilson
came all the way to Indianapolis to
remark that the Republican party
had not had a new idea in thirty
years.

A Washington dispatch says Mr.
Moss made a few changes in the bill
to fit in chronologically with the era
of its recrudescence, but in the main
the bill is almost identically the
same, none of its essential features
being changed in the least.

Thus is seen one of the strange
whirligigs of politics. Moss is a
Democrat—a thoroughly ingrained
Jacksonian tariff-for-revenue Dem-
ocrat. Longworth as everybody
knows, is a Republican of the pro-
tection school. No, there is nothing
in law or ethics to prevent a member
of the congress from swiping some-

**"Vaporize" Croup
or Cold Troubles**

Vapor treatments for cold troubles are
better than internal medicines, as the va-
pors carry the medication direct to the
lungs and air passages without disturbing
the stomach.
When Vick's "Vap-O-Rub" Salve is ap-
plied over the throat and chest, these va-
pors, released by the heat of the body, are
inhaled with each breath. 25c. to \$1.00.

body else's bill. It is done fre-
quently.

But the worst of the story is yet
to come. Mr. Longworth is a "come-
backer" and on March 4 next he will
become a member of the congress
again. Naturally he will want to
introduce the bill of which he is the
parent and push it through the con-
gress as his cherished offspring.
Therefore, it is reasonable to sup-
pose he will be deeply chagrined
when he learns that Representative
Moss is kidnapping his child and is
running away with it. Furthermore
many Democratic members of the
house are assisting him in getting
away with the stolen goods.

What a Dollar Will Do

This is the time of year when
many people begin to approximate
their expenditures for the ensuing
twelve months.

What of your expenditures?
Have you considered what a single
dollar will buy and what a feast of
information it will give you?
Let us think a few thoughts.
A dollar will pay for one hundred
and four issues of this paper.
And what will the paper do for
you?

It will be a regular daily visitor
to your home—rain or shine—in
good weather or foul—in prosperity
or adversity.

It will tell you what the town and
county authorities are doing, of the
improvements they are making, of
the manner in which they are ex-
panding the people's funds.

It will tell you of business con-
ditions, of crops, of the state of the
markets, of all that is needed in
the conducting of public and private
affairs.

It will tell you of the births, of
the marriages, of the deaths, and of
the sickness of your relatives and
friends.

It will tell you of the business op-
portunities of the community, of the
public sales, of the transfers of real
estate, and of many other such de-
tails in which you have a personal
interest.

It will report conditions among
the stock, and the chickens, and the
hogs, and of everything that walks
on feet.

It will tell you what your neigh-
bors are doing, what others farther
away are doing, what the community
at large is doing. And it will tell
others what you and your family
are doing.

It will tell you of the activity of
the churches, and of the societies,
and lodges, and of public gatherings
of every nature.

It will tell you of the strangers
within our gates, and of your visits
to other climes.

It will tell you of everything worth
knowing in our entire community,
throughout your circle of acquaint-
ances, and it will tell you all of these
things twenty-six times every month.

Is there any place where you can
spend a dollar to better advantage
than to invest it in a year of this
paper?

* **PRESS COMMENT ON** *
* **PRESIDENT'S SPEECH.** *

Serves Him Right
(Muncie Press)

In view of the interesting event
which has just occurred at the White
House, it is probable that President
Wilson will never again rebuke the
Republican party for "taking its ad-
vice from men old enough to be
grandfathers."

Will Overlook It
(Richmond Item)

In view of what transpired at the
White House Sunday doubtless Re-
publicans will be more disposed to
overlook the unkind things that
President Wilson had to say about
them in his Indianapolis speech.
Prospective grandpas are liable to
become a trifle enthusiastic, occa-
sionally.

MANURE SPREADER.

If you have any thought of getting
a Spreader this spring, please come
and see the New Idea that I am
handling. Sold on two days trial.

Smoke **FAIR PROMISE** 5c Cigars

**What the Solons Are Doing;
Legislative Facts---By Expert**

Prepared for the United Press by John A. Lapp,
Director of the Bureau of Legislative
Information.

(Mr. Lapp will answer questions relating to
the work of the Legislature, including legisla-
tive organization and methods, pending bills and
enacted laws. Questions on the merits of men
or measures will not be answered. To avoid
delay address all questions direct to the United
Press, 38½ West Washington St., Indianapolis.
Questions may be sent to the Daily Republican
if preferred.)

M. A. writes—"What are the pro-
visions of the direct primary law
now in effect in Indiana?"

Reply—The present direct pri-
mary law applies to the nomination of
county officers in counties which
have a city with a population of
more than thirty-six thousand, and
to the nomination of city officers in
such counties. Other counties and
cities may hold a direct primary at
the wish of the parties.

Emory writes—"Why is it that a
court now has difficulty in closing
a house of ill fame?"

Reply—There is no process by
which a court may close a house
of ill fame except when offenders

from such houses are brought for
trial before the court, when a court
may fine and imprison such offen-
ders. A bill is now pending before
the legislature which declares such
houses to be nuisances and permits
courts to issue injunctions to pre-
vent the continuance of such houses.

Farmer writes—"What are some
of the objections raised to the three-
mile road law?"

Members of the legislature
are saying that the three-mile
gravel road law is costing too much
money, that it does not insure the
building of the roads that are most
needed; and that it is too easy for
a few people to put heavy expense
upon the township by it.

Taxpayer writes—"How are the
county health commissioners now
chosen?"

Reply—The boards of county
commissioners appoint the county
health commissioners.

**Over Two Million Squirrels Have
Been Killed Because of the Plague**

(By United Press.)

Washington, Jan. 20.—The war of
extermination against "squirrels be-
ing conducted in California by the
United States Public Health Service
in connection with the precautions
against plague has resulted in the
death of 20,150,000 rodents, accord-
ing to figures just announced.

During the epidemic of plague in
San Francisco in 1907-1909, it was
discovered that the ground squirrel
a rural rodent which abounds on the
Pacific coast, had acquired the in-
fection. Cases of plague in human
beings which had occurred in rural
districts were traced in these ro-
dents. The health service at once
decreed their death.

Since 1908, the chief efforts of the
Public Health Service and the Cali-
fornia state board of health, acting
in co-operation, have been directed
to eradication of plague from among
ground squirrels. The most satis-
factory work, it is stated has been
accomplished since July 1, 1913,
due to the fact that sufficient funds
and adequate legislation were pro-
vided by the state legislature at its
last session.

Ninety percent of the squirrels on
an area of 3,100,000 acres, or about
equal the size of Connecticut, have
been destroyed since July 1, 1913.
The infection has almost disappeared
in this area. So effective has
been the work of the hunters that
they have to cover an area of 25
acres to catch one squirrel.

"In view of these facts it is be-
lieved that all discoverable plague
has been eliminated from Califor-
nia," says the Public Health Service.
"and that the danger of its further
spread has been removed. Obser-
vation will be maintained until after
the next breeding season, which be-
gins in April, when—if no further
infection has made its appearance
—the statement can be made with
certainty that no further plague
exists in California. Large
economic benefits have accrued to
farmers as a result of squirrel de-
struction and all are now interested
in finally destroying these animals.

Pig clubs are the latest fad in
Louisiana, says the Department of
Agriculture in a bulletin just issued.
The contest of members of the pig
clubs at the Louisiana State Fair at
Shreveport was highly successful,
the department reports. Although
the fair authorities limited the num-
ber of entries to 150, boys from all
parts of the state shipped 185 pigs.

The southern farmer, by virtue of
his location and climate, is splen-
didly situated for the production of
fowl and eggs, says the Department
of Agriculture in a bulletin just
issued. The mild winters and early
springs make the production of eggs
an easy matter when prices are high.

LIGHTWEIGHTS ARE VERY ACTIVE

Ex-Champs and Second Raters Trying to Get in on Easy Money Seemingly Coming Their Way

BAT NELSON WANTS ONE MORE

Talent is Equally Matched and Many Good Fights Have Resulted. More to Come

BY HAL SHERIDAN
(Written for United Press.)
New York, Jan. 20.—Everybody in these dollarful days of sport seems to want to be a lightweight. Ex-champs are coming back, ditto ex-second raters, and a whole crop of young blood who scrap around the 133 pound mark are trying to bring their way to fortune via the califlower ear route.

The reason is, naturally, the cash. The public apparently has tired of inferior mulling by lumbering "heavies" the middleweights until recently have not excited much interest and the feathers and bantams have been keeping unmercifully quiet.

The lightweights, around such boxing centers as New York, Milwaukee and New Orleans, seem to be getting all the coin. Aside from the fight fans' interest in a lightweight mill because more cleverness is usually shown than in encounters between heavier boxers, it is a fact that the present crowd of lightweight entertainers is about the best in several years.

Perhaps not in many seasons has the fight ring seen equally matched talent as Freddie Welsh, Charley White, and Young Shugrue with Willie Ritchie, Ad Wolgast, Leach Cross and Johnny Dundee hovering around the fringes of the same championship class. Below this crowd is a host of other "lights" capable of giving any crowd its

Speaking of lightweights, you can not let Bat Nelson of Hegewisch, Ill. drop completely out of your mind. Bat won't let you. Having tackled a fresh break into vandyville the ex-king of lightweights offered to lick everything in sight and particularly to trim Ad Wolgast "just for fun."

Abe Attell also is in vandyville. Consequently it is not peculiar that Abe breaks into print. He bites off a section of the battling Dan's weeping challenge and offers to beat him "if he weighs a ton."

Come on Osear Nelson—come on.

HOUSING LAW IN DANGER

Representative Van Horne Will Push Repeal Measure.

(By United Press.)
Indianapolis, Jan. 20.—Representative Van Horne of Lake county, Republican, today, declared he intended to push his repeal to the housing law, which passed the 1913 session. This attempted repeal has been expected but the source was unknown.

"Hammond, Gary and East Chicago have sent representations to the Governor asking that this law not be enforced, for it works an injustice on us," he said. "The sections prohibiting building on 25-foot lots and erecting building flats above store buildings are the most objectionable features to these fast-growing cities," he said.

A marriage license was issued this afternoon to Dr. John G. Lewis and Mrs. Nina L. Abels.

Will Charge Batteries.

We have installed a battery charging outfit and are now prepared to take care of your storage batteries. Will be glad to recharge them at any time or will take care of them for you through the winter months while your car is not in use at a small cost per month.

WOULD HIT MANY CONCERNS

Bill Provides Penalties For Pollution of Streams

(By United Press.)
Indianapolis, Jan. 20.—Manufacturing concerns that use streams to carry away refuse were particularly interested this afternoon when the public hearing of the house committee on judiciary A. opened. The bill considered was that of Representative Deek, provides penalties against the pollution of any stream or river by refuse. It is said this would affect seriously many manufacturing concerns.

FIGHTING RESUMED ABOUT NIEUPORT

Is Marked by Desperate Battle for Possession of Bridge Over Ypres River, French Say

GERMANS TRY TO DYNAMITE IT

(By United Press.)
Paris, Jan. 20.—Desperate fighting for the possession of a bridge over the Ypres marked the resumption of the fighting in the Nienport region along the sea coast, the war office statement today said.

The bridge was held by the French. Under cover of violent artillery action the Germans tried to dynamite the structure across which the French had made several unsuccessful sorties. French guns were wheeled into action and poured such a hot fire upon the east bank of the Yser that the Germans were forced to withdraw, having suffered heavy loss.

Among The Lawmakers

(By United Press.)
Indianapolis, Ind., January 19.—Sitting within reach of each other in the house are two men as different as well may be. One is young and nervously energetic, introducing bills right and left to abolish this and prevent that, while the other sits quietly watching proceedings and weighing his vote for the bills his colleagues drop into the hopper. Fred L. Feick, lawyer of Garrett, is the nervous one, while M. M. Justus of Bluffton, is the quiet one. Justus says he does not intend to introduce a bill unless some constituent in Wells requests it, but Feick seems to be trying for a record.

Assemblymen are beginning to watch each other with that degree of distrust engendered by the fact that most of them have bills and are wondering just what support they can get for them. The you-vote-for-my-bill-and-I'll-vote-for-yours policy is already cropping out irrespective of party or locality. Those who have introduced no bills are the only ones who can call their seat their own. A bill called the "anti log-rolling bill" has been mentioned to stop this. It would make it a criminal offense to trade votes. This has become a law in Wisconsin.

Representative William A. McCullough of Spencer county, who has introduced a bill for a commission to locate the route travelled by the Abraham Lincoln family through southwestern Indiana, believes that eventually the route would become an improved highway which would be travelled by many tourists. The state of Illinois already has appointed such a commission and Kentucky has been asked to do so. By such co-operation it is believed that the complete trail taken by the Lincolns through the wilderness may be located.

Representative C. F. Crecelius of New Albany has his eyes on the governments of two states for his son is Kentucky's secretary of state.

SUGAR WEATHER IS NOT FAR AWAY

Within a Month, With Favorable Conditions, Smoke Will Begin to Curl From Camps.

FEW SUGAR TREES REMAIN

Maple Industry Carried on so Quietly That Little Thought is Given to Improvements.

Within a month, the weather favoring, smoke will begin to curl up through the frosty air from dozens of sugar camps in Rush county. Several years ago the farmers of Rush county began to husband their sugar trees. As a result, a considerable number of sugar groves of goodly size have survived the general destruction of the forests.

Although there are several thousand sugar trees still standing in Rush county, they are but a pitiful remnant of the hundreds of thousands that overspread the county when the first settlements were made.

When the pioneers came into the valley of the Flatrock it was practically an unbroken forest, and the sugar trees were found in strong muster on almost every acre. There have been enough sugar trees to supply the entire state with maple syrup.

The maple industry is carried on so quietly that little thought is given to the great improvement in the methods of making maple syrup. The early settlers learned how to make maple syrup from the Indians, whose methods were of the crudest. The tree was gashed with an ax and an open wooden spout or a chip driven in to carry the sap, which was caught in small wooden troughs, roughly hollowed from a log, placed at the foot of the tree.

The sap was collected in two wooden buckets attached to a shoulder yoke and carried to a big iron kettle, hung over an open fire in a sheltered spot. As the sap boiled down fresh sap was added until, after long boiling, it was reduced to syrup and ready to pour into casks or else was stirred off into sugar for family use, cane sugar being a luxury which few could afford.

Wooden buckets, fashioned by hand, soon took the place of the wooden troughs, and the auger and elder spout were used for tapping, but the picturesque iron kettle, over the smoky, open fire, was in use for many years. The syrup was dark in color and very little was made in excess of an amount necessary to supply the family needs. As the demand for syrup increased the single kettle was replaced by a chain of kettles on a stone arch, the syrup being dipped from one kettle to another, great care being necessary to prevent scorching. This in turn was followed by the pan, set on a brick or stone arch. This, while an improvement over the kettle, had a drawback—the sap boiled too long, making a dark colored syrup, and it was wasteful of fuel.

With the introduction of the modern evaporator, with its automatic feed, regulating the depth of sap, and a continuous, shallow flow of sap passing from pan to pan, syrup making was revolutionized and became of commercial importance. The operator is able to handle his sap quickly with a great saving both of labor and fuel, and to produce syrup almost as "fair as honey" and of delicious flavor. The metal spout is used now, and the wooden bucket and "keelers" of the early days have been replaced by the metal sap bucket, easily equipped with covers to keep out leaves and rain or snow.

The sap is collected in a metal gathering tank, with a double strainer into the sap. When sufficient sap has been collected, the fire is started and boiling is commenced, as the sap should not be allowed to stand in the storage tank. This is a point where one begins to appreciate a first class evaporator, for the sap begins to boil almost immediately, and there is no bothersome smoke, no wasting of fuel and no dipping of sap, but a steady inflow of cold sap and foaming pans of boiling sap. The steam should be

carried out through the ventilator in the roof over the evaporator.

The progressive syrup maker sells direct to the consumers and by taking pains to have every gallon of syrup he sells up to the standard, he not only holds his trade from year to year, but also adds to his list of customers each season, as any one who once tastes the real genuine maple syrup is sure to recommend it to his friends.

Not long ago a so-called "syrup manufacturer" was prosecuted under the pure food laws of Ohio for making "maple syrup" out of a decoction of kichory chips.

Pure maple syrup is a luxury, and there is an increasing demand for it, a better price being paid now than ever before. The farmer who has sugar maple trees that he can tap will find that his maple syrup is one of the best paying crops on the farm for the outlay. The work comes at a season of the year when other work is not pressing and, even if the farmer does not care to make more than enough for his own use, his boys and girls will remember for years the pleasure of stirring off sugar, or making that most delicious of confections, maple wax, by pouring the hot syrup over the snow.

According to the census of 1900, Indiana produced that season syrup to the amount of 179,567 gallons and 51,900 pounds of maple sugar, which was valued at \$161,935.

AEROPLANES ARE TOWN WRECKERS

Continued From Page 1.

widely known seaside resort and fishing town of Yarmouth. Two persons, a man and a woman, were killed, a number of other persons were injured and much damage to property was done by the raiders in their visit, which lasted less than ten minutes. Four or five bombs were dropped in Yarmouth.

When the attack began the authorities gave instructions that all lights in the town be extinguished and other precautionary measures were taken. Few signs of panic were seen during the raid.

Apparently the raiders, after visiting Yarmouth, flew over Cromer, where they dropped bombs, and then went to Sherringham and Beeston. Turning inland from there they made for Sandringham, dropping explosives missiles there and at Kings Inn, where a boy was killed and a man, woman and a child were injured. Two houses were destroyed. The damage done in Sandringham has not been reported. It is known, however, that the royal palace was not harmed. At Sherringham a bomb penetrated a house, but did not explode.

Only yesterday Scotland Yard authorities issued instructions concerning measures to be taken by the police and other officials in the event of an air raid.

The police and special constables were called upon in the instructions to hold themselves in readiness for a possible raid on London and the fire brigades also were warned to be in readiness.

The report of the attack on Norfolk County caused considerable commotion in London. Searchlights all about the city were busily engaged throughout the evening, scouring the sky with their rays to pick up any aircraft that might approach. Up to a late hour, however, there was no sign of any aerial visitor.

ARGUMENT POSTPONED.

(By United Press.)
Indianapolis, Ind., Jan. 20.—The condition of Judge A. B. Anderson, of the United States District Court for Indiana today gave his physicians no concern, but they decided he should remain indoors several days yet. For this reason the arguments on the demurrers in the Terre Haute election fraud case, in which 126 men have been indicted, was continued from today until next Tuesday. Judge Anderson has the grip.

UNION MINERS ADMIT GUILT.

(By United Press.)
Ft. Smith, Ark., Jan. 20.—Seven union miners pleaded guilty in federal court here today to indictments charging conspiracy against the United States. Charges against thirteen others were dismissed. The charges grew out of a lock-out at Prairie Creek, Ark.

Life Saving Station

DID YOU KNOW that this town has a Life Saving Station? It is a fact—it has.

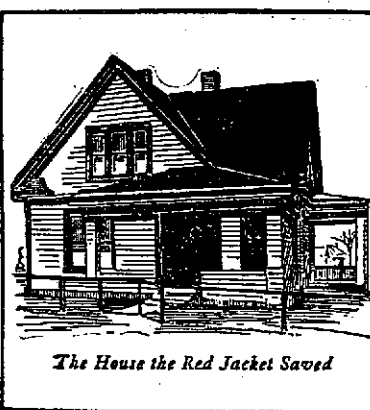

This drug store is the station, and it is a blue ribbon saver of lives.

Every day some one drops in who is "off his feed," and needs something to brace him up, to put new life into him. Our little "bracers in time" restore people to their normal health and thereby prevent sickness which might otherwise result in death.

Our Beacon Light of Life is always trimmed and burning. Come to it when you are in distress.

The House the Red Jacket Saved

Read This Letter:
"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on 'fire protection' that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect. Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

CLAUDE BARNETT
Milan, Mo.

IT WAS A

New York City Fire Horses Will Be Extinct In Three More Years

BY CARLTON TEN EYK,
(Written for United Press.)

New York, Jan. 20.—The New fire horse in 1918 will be extinct as the dinosaurs, the dinothys and other animals of that uncertain age. Today there but a thousand horses in the fire department and following the policy of replacing the picturesque animal with the more practical motor driven vehicles, the last horse will have disappeared in three years from now.

Sentiment does not run one, two or three with a municipal government when it decides to be economical and frequent tests have shown that gasoline is more reasonable than oats and that the wear and tear on machinery is less than on horse flesh. The actual figures are interesting.

The tractor which is used to haul the fire engines costs \$3,600 and the upkeep is \$414.60 a year. Three horses to do the same work cost \$1050 for the three and \$900 a year for upkeep. A tractor will last for 20 years; a horse but seven years.

One other advantage of the motor drawn apparatus, an advantage not to be despised in the skyscraper district, is the ease with which all the fire companies may be mobilized in a short time.

The youngsters of the future will have to look elsewhere for imaginative material with the passing of the fire horse.

The European war has touched the local people in an unusual quarter—the Y. M. C. A. In time of peace abroad, it is customary for the secretaries of this organization to spend a great deal of time with the young men between 15 and 45 who come to this country.

Normally, 82 percent of all the immigrants is between those ages. But the warring countries, of course are not permitting able-bodied men to leave their country. Greece and

Italy have followed in the lead of the others and the percentage has been greatly cut down.

Y. M. C. A. workers formerly met and became acquainted with 3000 immigrants a month at Ellis Island. That figure has decreased to 800.

Peter Roberts, secretary for immigration work of the international committee, has made some interesting observations in connection with his labors among the foreigners. He has noted, for example, the effect of the war upon the Poles in this country. He sees a hopeful sign in the fact that the Poles are inspired by the fight which their former countrymen abroad are putting up against the Germans and that the American Poles feel more confidence in themselves as a result.

Commenting upon the often expressed, fear of a tidal wave of immigration after the war is over, Roberts has this to say:

"I see that in Washington they are dreading the flood of immigration that will arrive after the war. Well, I don't believe there is any flood coming, although I believe a torrent of immigration then would be a good thing, as business will boom and there will not only be no unemployment but also a demand for labor that will far exceed the supply."

MACK CAUSES MORE SURPRISE

Collins Deaf Was Nothing as Compared to Surprise When he Grabbed off Nap Lajoie.

SURE HAS THE FANS PUZZLED

Says There is Lots of Baseball in Veteran and he Will Not be Seen on Bench.

BY IAL SHERIDAN.

New York, Jan. 20.—What is going on under Connie Mack's derby is the problem that has every follower of the horsehide pill, possibly with the single exception of Mack himself, sorely puzzled.

Reams of stuff were batted about the infield of dope when Connie dropped Eddie Collins to the delight of one Charley Comiskey. The Collins sensation came along as a fine young climax to the upset in the Athletic's pitching corps.

Now Mack has 'em guessing again. Having once posed as the friend of the young and ambitious in baseball, he side-tracked the practice of grubbing promising youngsters by taking a clutch on Nap, Lajoie about the time word was going the rounds that the once great Napoleon was about to pass into obscurity.

Balldom remembered that Larry really did his limelight burst when he jumped from the Philadelphia Nationals to Mack's team in 1901 and then swung to Cleveland. It was figured that this latest move was a sort of pension scheme for Lajoie with a job of coaching a few more youngsters Mack is expected to dig from the bush league haunts. But Mr. McGillivuddy killed that yarn. Thirteen years of service

with Cleveland may have worn the edge off Napoleon, Mack admitted, but there is considerable solid baseball man left. Instead of rusting on the benches Lajoie will amble up to the bat when the 1915 season blows open, says Mack.

The Collins-Lajoie double-climax was too much for the sharks. It left them faint. Nothing more that can come out of the camp of the ex-world's champions will create much of the stir. Nobody knows how far Connie Mack will go. No matter how far it is, nobody—hereafter—will express surprise.

WATCHFUL WAITING TO BE HIS POLICY

Representative Robert Kemp Takes This Attitude Regarding State-Wide Primary Bill

WILL LET IT REST A LITTLE

(By United Press.)

Indianapolis, Jan. 20.—"Watchful waiting" will be the policy of Representative Robert Kemp of Holland, Dubois county chairman of the committee on elections so far as the Jones state-wide, direct primary bill is concerned. When he came in from the committee meeting today he made that statement to a group of legislators. Kemp said he did not intend to bring up the primary bill until it "had rested a little." Kemp is a teacher by profession, as was the one who coined the phrase. Kemp has not yet fixed a date for the public hearing. Representative Jones of Plymouth, author of the bill, is known to feel that delay helps rather than hurts the chances for his bill, which follows the idea of Senator Kern and the Democratic platform.

MIRROR 125 YEARS OLD.

Frank Buell, living east of the city, has a mirror approximately one hundred and twenty-five years old. It was a wedding present to his great grandmother and great grandfather and has been handed down through successive generations. The mirror is very similar to the one which President George Washington owned and is now one of the nation's relics in the Washington home at Mt. Vernon. The same glass is in the mirror as was when it was purchased, but a slight crack has appeared in one corner of the mirror lately. It was purchased about 1790, Mr. Buell says.

MILK QUALITY CAN BE BETTERED

Department of Agriculture Shows That it Depends on Treatment Received all Along Line

PITTSBURGH AN EXAMPLE

Growers of Cotton Are Being Urged to Build More Warehouses to Prevent Country Damage

(By United Press.)

Washington, Jan. 20.—That the quality of milk sold in our large cities depends largely upon the sort of treatment it receives from the time the farmer leaves it at the way station until it has been received at the big city milk distributing market has been clearly established by a recent Federal investigation of the milk supply of Pittsburgh, says the Department of Agriculture in a bulletin just issued.

It was also made clear that the excellence of a city's milk supply depends importantly on constructive co-operation between the milk whole salers and the railroads, in the proper refrigeration of the cans after they are delivered for transit. As a result of the investigation, Pittsburgh, instead of getting milk that on an express or freight car got so warm in a eight or nine hours trip from the country to the city that cans frequently blew up or "geysered" is now getting a product that is put into a modern refrigerator car at the country station and is kept chilled until it is delivered to the home.

After some controversy, referred by the Department of Agriculture, between shippers and dealers a 20 percent advance in the traffic rates on milk in the Pittsburgh district was agreed to, with approval of the Interstate Commerce Commission with the proviso that a rapid refrigeration service be provided by the railroads in the transportation of milk. The case of Pittsburgh is fairly typical of the milk situation of all the large cities of the United States, says the Department, and it urges authorities to begin movements in their prospective districts.

To prevent what promises to be an usual amount of "country damage" to cotton this year, the cotton marketing specialists of the Department of Agriculture are urging growers to warehouse their cotton, or, if this is impossible, to build temporary sheds to protect it. They state that even under normal conditions of dollars from what is commonly called "country damage."

Owing to the war in Europe, the present crop cannot be marketed readily, and an unusually large amount of cotton, they point out, is lying unprotected around gins and on the producers premises. They aggregate amount of country damage therefore, they say, is likely this year to be far greater than usual, and in view of the fact that there is such a large surplus spinners and exporters will unquestionably discriminate sharply and exporters will against damaged cotton.

"It is generally believed" say the experts, "that many new warehouses should be built to house the crop; but a careful investigation by the Office of Markets indicated that if all the warehouses at the ports, in the interior, and belonging to the cotton mills were used, every bale of cotton produced this year could be stored without the erection of additional buildings."

Emphasizing the importance of housing cotton, the specialists say: "Few individuals and few banks are willing to advance money on cotton when it is not properly housed and insured. Those who do so are taking a certain amount of risk and at most invariably charge higher rates of interest than the owner of the cotton need pay if his cotton is properly stored. It is also understood that no part of the \$135,000, 000 subscribed by the bankers of the country to be loaned on cotton at six per cent will be advanced on cotton which is not properly housed and stored."

Miss Louise Hogsett is recovering from an attack of appendicitis.

Muscel Shoals Project Provides For Improving Tennessee River

BY BURTON K. STANDISH
(Written for United Press.)

Washington, Jan. 20.—If you of Niagara Falls, you are acquainted with the fact that its giant power houses can take out 450,000 horsepower from the millions of gallons of water. But you perhaps have never heard of Muscel Shoals in the Tennessee river. Here is a mighty project, from which its backers propose to develop 650,000 horsepower—more than Niagara, more than the combined horsepower of the big manufacturing cities of Holyoke, Manchester, Lawrence and Cohoes.

And this dream—a dream a substantial material backing—is what Majority Leader Underwood of Alabama has proposed to President Wilson for his inspection and careful consideration. This year, \$150,000 is asked in the rivers and harbors bill for initial work on developing this gigantic power. Later, thousands of more dollars will be spent if the dream of the dreamers come true. The government is asked to loan a large amount to a hydro-electric concern to upbuild this power. Its money would be cast on the waters—but to return after many years in full to the treasury.

The significant feature of the plan as it was presented to President Wilson by Underwood was the manufacturer of cyanamid at the Shoals.

Now, cyanamid is neither a breakfast food nor a new German explosive. On the other hand, it is one of the most valuable fertilizers that this nation knows. Yet, strange to say, this nation must depend on Europe chiefly for its supply.

Cyanamid is almost dirt cheap, if one has the facility to make it. In fact, its chief ingredient comes out of the air.

Nitrogen—the most valuable of all fertilizers is contained in large quantities in air. A charge of electricity will draw it out, so to speak. The rest of the cyanamid is merely an admixture of lime.

Still year in and year out this country is paying millions for Chile's nitrates for fertilizers, when they might come out of the air.

The Muscel Shoals project backers propose to manufacture this product extensively, thus furnishing a valuable supply for revitalizing farm lands, and saving this nation the bill Europe and Chile now annually hold against us.

Still another idea of the Muscel Shoals dreamers—is to utilize the

"bauxite" of the southland to manufacture aluminum. At present this ore goes to Niagara Falls for conversion into the lightweight, yet durable metal. If President Wilson and congress approve the plan, this Shoals will be converted into an enormous manufacturing plant, with its raw products in the air and the ground right at hand.

Furthermore, the south's iron and steel business, the Shoals backers say, will be boomed by the use of hydro-electric power for huge furnaces.

Discussing the subject today, Rep. Underwood declared that the proposal would be one of the biggest industrial booms the south could have. He scoffed at contentions of Rep. Fear of Wisconsin that the proposed appropriations would mean a gift on a silver platter to the electric companies. Fear's contention that the Shoals are deteriorating from a navigation standpoint was admitted by Underwood, but he argued that the government ought to lead its aid to a proposal that meant as much as this to the south as to the farming industry throughout the land.

To drink or not drink. And whether to follow out the rules of the high lord of the admiralty and thereby thirst high unto death, or by merely infringing on said rules, break them and quench aforesaid thirst. Yep, mates, that's what congress is thinking nowadays in view of the fact that arrangements are under way at present to carry a large portion of the congressional membership through the Panama canal to Frisco when the president goes in March.

There is more than a bit of discussion in cloakrooms as to whether the Daniels "dry navy" order will apply to congress. And incidentally—and strictly privately—the members are saying that they want this trip engineered by somebody who believes that a congressman may if he chooses absorb something stronger than ozone or grape juice.

This, however, is no ordinary "junker." Everybody pays his own expenses, consequently every congressman can have his little nippee if he likes it.

Rep. Khan of California, genial booster of the Pacific Coast and its charms, is a sort of personal conductor for the expedition, and he gives members of congress guarantees that they'll be used all right both on ship and after they hit the Golden Gate.

Tinted Specs For Artificial Light.

For viewing objects illuminated by artificial light when it is desired to see such objects exactly as they would appear in daylight, H. E. Ives, the English physicist, suggests colored glass spectacles. The glasses would be covered with a collodion or gelatin surface, stained with aniline dyes carefully selected to filter out the light rays peculiar to artificial light. For each kind of the latter a special formula would have to be followed in preparing the spectacles. These spectacles would be useful in many industries, as, for example, the making of artificial teeth, where color has to be most accurately matched. They might also be lent to visitors at picture galleries by night or on dark days, when artificial illumination is employed, in order to insure the most favorable view of the pictures.—New York World.

Famine.

I am the skeleton in every nation's closet. I hide myself in the dark recesses behind the silent uniforms swaying in the dark. While the guests make merry and the householders ply them with vials at the friendly board I bid my time.

But when the alarms sound and the guests go out to kill then I start forth in the gray shadows of early morning. With my thin wand I touch the cornfields and watch them wither.

And as the sun shines on battlefields my day of triumph comes. No longer afraid to show my hollow face, I stalk through village and city, laying my rattling hands on mother and wife and babe.

My comrade, War, true to his eternal promise, has given me the entry to all societies.—Life.

Brilliant Venus.

When she is at her brightest Venus is so bright that if you knew where in the sky to look for her you could easily see her in the daytime, and at night she sheds so much light that where other lighting is excluded she will cast a plain shadow. She is about five times as bright as Jupiter ever gets, ten times as bright as Sirius, the largest of the fixed stars, and a hundred times as bright as the ordinary first magnitude stars. Her reign is, however, short for, as she makes three revolutions to the earth's two, she rapidly passes us.

An Endowed Flagstaff.

What is thought to be the only endowed flagstaff in the world is that belonging to the Royal Asylum for the Deaf and Dumb at Margate, England. This staff was erected in the first year of the reign of King Edward VII, in commemoration of his accession to the throne. The cost was defrayed by the pupils and friends, and the collection taken was so large that it enabled the purchase of twenty flags.

Even when the staff and the flags had been paid for £40 remained in the treasury. This sum was invested for an endowment fund, and the interest is used every other year for painting and repairing the pole and tackle.

Some of the various flags bought are the royal standard, which is flown on the king's accession day, his birthday and his coronation day; the stars and stripes, run up on the president's birthday and election day; the French flag, used on the president's birthday; appropriate banners for St. David's, St. Patrick's and St. George's days; the union jack for the anniversaries of famous battles, and flags for the church's high festivals.—New York Tribune.

Australian Pearls.

Pearls found on the coast of Australia are of many shapes and colors. Those under ten grains are sold by the ounce, above that by the grain. Color has a deal to do with the value. The white pearls go mostly to Europe and the yellow ones to India. In Australia an ounce of good white pearls will fetch up to \$500, but sometimes realizes only a fifth of that amount. The yellow pearls may be rated on an average at about half the value of the white ones. The seed pearls used for cheap jewelry can be had for \$5 per ounce and discolored pearls for 7s. 6d., but if the discoloration is peculiar the value is sometimes enhanced. For the low class of seed pearls there is a constant demand among oriental physicians and apothecaries, who grind them into a powder and administer it to patients as a cure for many ills.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

SENATE "KILLS" ELECTRIC CHAIR

Close Fight on Bill to Abolish Capital Punishment is Certain in Lower Branch.

VOTE IN SENATE IS 27 TO 19

Two Editors Are Champions of Opponents and Those Favoring Measure Defeated in 1913.

(By United Press.)

Indianapolis, Jan. 20.—Capital punishment became a big issue in Indiana when the bill of Senator McCormick's abolishing capital punishment passed the senate, 27 to 19 late yesterday. A similar bill was defeated when it appeared in the senate two years ago. It is believed certain that the house will pass or defeat the measure by a small margin.

One of the strongest advocates of capital punishment is another editor who hails from Michigan City, the city where the executions take place. Senator John B. Faulkner, editor of the Michigan City Dispatch, is as strong against the bill as Senator-Editor McCormick is for it.

McCormick outlined his reasons in terse language:

"Thou shalt not kill. That command its emphatic and obligatory upon all men and leaves no permission whereby two or more persons may do, innocently, what would be a crime in one," said McCormick.

"The taking of a human life by the state is prompted by a spirit of retaliation or revenge. Legalized killing destroys the sacredness of human life. Capital punishment does not protect society, for crimes do not increase in states where this barbarous custom has been abolished. Today eight civilized countries are living in security though they have done away with it. The people of Michigan, Rhode Island and Wisconsin have lived safely without the death penalty for over sixty years. It is abolished with like result in Kansas, Maine, Minnesota, Washington and Oregon. These states show the lowest percentage of murders and Milwaukee has the lowest crime rate of any city in the United States."

Senator Faulkner gave some figures to press his argument, though he admitted that "maudlin sentiment may force the bill through the senate."

"For ten years I have voted against this proposition, which bobs up regularly. It is purely a matter of maudlin sentiment," Faulkner then proceeded to give some of his figures.

There are, he said, 250 murderers serving life sentence in the Indiana State Prison in Faulkner's city. There are one-third more who committed murders who escaped with manslaughter sentences of from two to twenty years. At least 350 of the 1,175 population of the state prison committed murder, he said.

"There are now twelve alleged murderers awaiting trial in Marion county alone. That indicates there must be 200 in Indiana awaiting trial. Doubtless during the past 12 years close to 1,000 men have been murdered in Indiana, yet in the past eight years there have been only 3 executions."

"The conclusion is that if such preponderance of awful crime exists with the electric chair a possibility, the crime would increase with the chair out of the way. Prospective murderers would then say, 'All I'll get is life, and if I'm lucky I'll be out in ten years.'"

There was an element who called attention to the fact that the jury now has the right to substitute the life sentence for the death penalty and who deplored the fact that under the present system of paroles "lifers" seldom remain in prison more than a dozen years. These suggested that the legislature retain the death penalty but pass a law forbidding life prisoners to be pardoned except on new evidence that shows the innocence of the prisoner.

Levi T. Plummer and Nancy A. Plummer have filed a claim against the estate of Mary J. Bowman, deceased, demanding \$2,224.

LUMBERMAN IN SESSION

Hardwood Dealers in Annual Convention in Indianapolis

(By United Press.)

Indianapolis, Jan. 20.—Hardwood lumbermen of Indiana held their annual convention at the Hotel Severn today. The directors met this morning and the general meeting will be held this afternoon. They will be addressed by E. F. Trefz of Chicago representing the Chamber of Commerce of the United States. There will be a banquet this evening.

BILL TO ABOLISH THE "FREE LUNCH"

Representative Davis, Author, Says Custom is "Revolted, Disgusting and Unsightly."

HE CONSULTS DR. J. N. HURTY

(By United Press.)

Indianapolis, Jan. 20.—Because the saloon free lunch is "disgusting, revolting and unsightly," Representative Edwin C. Davis of Lake county, he introduced a bill today to prohibit it. He said his bill was introduced for sanitary reasons rather than moral reasons.

"I have seen men eat with their hands, and have seen them place the common fork in their mouths before returning to the pan," he said. Davis has been in consultation with Dr. J. N. Hurty of the state board of health several times.

When Representative Davis was told of a custom in saloons in the German neighborhoods of Evansville, where the free lunch is served on a clean plate by a cleanly hausfrau, and where every man gets his own spoon, he said he never had heard of such a custom and might amend his bill to meet Vanderburg conditions as well as those in Lake county.

"THE WELL BORN" SUBJECT TONIGHT

Evangelist at U. P. Church Says Reproach of Church is Too Many Believes Have Not Gone

All Way.

IN THE MATTER OF FAITH

"The Well Born" will be the subject of the Rev. Frederick Elliott of Springhill at the United Presbyterian church this evening at seven-thirty o'clock. This is the last week of the meeting and in spite of the bad weather good crowds are attending. The evangelist preached a sermon on "Faith" last night, taking for his text, Rom. 2:22, "Thou Standest by Faith." The Rev. C. M. Yocum of the Main Street Christian church was present and offered prayer.

The Rev. Mr. Elliott emphasized the fact that our solitary claim to the recognition of God is our faith in His Son. He also made plain that faith is not the abstruse, mysterious, thing it is often supposed to be, but simply consenting to the fact, function, and experience of things.

To believe in Christ is, therefore, to accept the fact of Christ, the mission of Christ and enter into his fellowship," he said, "He who consents to the fact and function, but rejects the fellowship, is morally mad. The reproach of the church is that too many professed believers have not gone all the way in the matter of faith. Fellowship with Christ means mutual confidence between Him and us. Can you trust, Christ and can He trust you?" and can He trust you?"

The Rebeccas will meet at the Bodine shoe store tomorrow morning at nine o'clock and attend the funeral of Mrs. Laura Sherwood in a body.

AUTO ROBBERS USED DISCOVERED

Machine in Which Clover Seed Thieves Made Good Their Escape is Finally Located.

GUILT IS NOT PLACED YET

The automobile that was used by the thieves in making their escape after stealing the five bushels of clover seed at the J. M. Amos farm, south of the city, Monday night, was found yesterday, but so far the guilt has not been placed on anyone in particular as it has not been definitely determined who drove the machine. The clover seed was scattered on the floor of the car and the officers and Mr. Amos believe that with this clue the guilty parties will soon be rounded up. The machine was seen to leave this city with three men in it.

Mr. Amos today decided to take no more chances with losing the valuable clover seed and disposed of it to a firm in this city. He had the seed weighed and placed in sacks. Two sacks were taken from the barn by the thieves Monday night.

EXPLANATION DEMANDED

State Department Wants to Know Why Vessel Was Detained.

(By United Press.)

Washington, Jan. 20.—The state department today on receipt of a report from Ambassador Gerard of Berlin of the British detention of the cotton steamer Greenbrier asked British Ambassador Spring-Rice to obtain from his government a full explanation of the incident.

ARE FIGHTING AT BIG ODDS

Turks Defend Themselves Against Larger Forces, They Say.

(By United Press.)

Constantinople, (Via Berlin), Jan. 20.—The Russian offense, moving southward in the Caucasus continues, it was officially admitted today, but the war office declares the Turks "are obstinately defending themselves against superior forces."

PRESSURE ON SWEDEN

Triple Entente Would Force Transit of War Materials.

(By United Press.)

Berlin, (Via Sayville, L. I.), Jan. 20.—Swedish newspapers report that the triple entente is bringing strong pressure to bear on Sweden to enforce the transit of war material to Russia, according to a statement given out today by the German press bureau.

MAY WHEAT UP AGAIN.

(By United Press.)

Chicago, Jan. 20.—May wheat resumed today its sensational advance interrupted last Friday and after opening today at \$1.39 3/4 jumped to \$1.42 7/8 at 1 p. m., with heavy export buying. It closed at \$1.43. Corn closed at \$1.58 5/8.

DISTILLER KILLS HIMSELF.

Chicago, Jan. 20.—Charles Ledowsky president of the Fox River Distilling company, killed himself today while riding on a train approaching Chicago. His company was recently placed in the hands of a receiver and he was wanted as a witness in investigations of reported forgeries.

SENATE AGAINST "SALARY GRABS"

Adopts Report of Committee Recommending Increase in Sheriff's Salaries and Board Fees.

(By United Press.)

Indianapolis, Ind., Jan. 20.—The senate today set its face against so-called "salary grabs" by adopting a report of the fees and salaries committee which recommended death for Stephen B. Flemming's bills to increase the salaries of sheriffs in Allen, St. Joseph, Vigo and Lake counties to \$8,200 and increasing fees of all sheriffs for boarding prisoners from forty to sixty cents a day.

The house passed the Field bill reducing the minimum size of hooks on trout lines to seven-sixteenths of an inch. The bill now goes to the senate.

New bills introduced in the house today: Harris, reducing the pay of traveling examiners of the state board of accounts from eight to six dollars a day; Cleary, providing that election inspectors shall transmit under oath the voted and unvoted ballots in sealed bags to the county clerk and that all pencils used in voting shall be destroyed before the vote is counted.
